6. PUBLIC HEARINGS/MEETINGS

7. NEW BUSINESS

8. UNFINISHED BUSINESS

9. COUNCIL COMMENTS/DISCUSSION

10. ADJOURNMENT

Proclamation

WHEREAS, on December 19, 2011, United Nations General Assembly adopted Resolution 66/170 to declare October 11 as the International Day of the Girl Child, to recognize girls' rights and the unique challenges girls face around the world.; and

WHEREAS, the International Day of the Girl Child focuses attention on the need to address the challenges girls face and to promote girls' empowerment and the fulfilment of their human rights; and

WHEREAS, adolescent girls have the right to a safe, educated, and healthy life, not only during these critical formative years, but also as they mature into women; and

WHEREAS, the City of Kennewick supports an investment in realizing the power of adolescent girls and upholds their rights today for a more equitable and prosperous future; NOW, THEREFORE,

I, **DON BRITAIN**, Mayor of the City of Kennewick, do hereby proclaim October 11, 2020

NATIONAL DAY OF THE GIRL

IN WITNESS WHEREOF, I have hereunto set my hand and caused the official seal of the City of Kennewick to be hereunto affixed this 20th Day of October 2020.

DON BRITAIN, Mayor

Attest:

TERRI L. WRIGHT, City Clerk

CITY OF KENNEWICK
CITY COUNCIL
Regular Meeting
October 6, 2020

1. CALL TO ORDER

Mayor Don Britain called the meeting to order at 6:30 p.m.

Meeting was conducted through an online, virtual meeting platform. Councilmembers and staff joined remotely. Council passed Resolution 20-08 on June 23, 2020, which temporarily designates the location for regular, special and study session meetings to the virtual location until Benton County enters into Phase Three of the Governor's Safe Start Reopening Plan.

City Council and Staff Present:

Mayor Pro Tem Steve Lee	Marie Mosley	Emily Estes-Cross
John Trumbo	Greg McCormick	Ken Hohenberg
Bill McKay	Christina Palmer	Chad Michael
Chuck Torelli	Lisa Beaton	Evelyn Lusignan
Jim Millbauer	Cary Roe	Bruce Mills
Brad Beauchamp	Terri Wright	John Cowling
Mayor Don Britain	Dan Legard	Krystal Roe

Mayor Britain led the Pledge of Allegiance.

HONORS & RECOGNITIONS

- Community Planning Month Proclamation

Mayor Britain read the proclamation in its entirety.

2. APPROVAL OF AGENDA

Mr. Trumbo moved, seconded by Mr. Torelli to approve the Agenda as presented. The motion passed unanimously.

3. APPROVAL OF CONSENT AGENDA

- Minutes of Regular Meeting of September 15, 2020.
- (1) Motion to approve Claims Roster for September 11, 2020.
(2) Motion to approve Claims Roster for September 25, 2020.
(3) Motion to approve Claims Roster for the Columbia Park Golf Course Account for August 2020.
(4) Motion to approve Claims Rosters for the Toyota Center Operations and Box Office Accounts for July 2020.
- Motion to approve Payroll Roster for September 15, 2020.
- Motion to authorize the City Manager to sign the Outside Utility Agreement with Shelley Morrison to provide sanitary sewer service.

Mayor Pro Tem Lee moved, seconded by Mr. Torelli to approve the Consent Agenda. The motion passed unanimously.

4. VISITORS - None

5. ORDINANCE/RESOLUTIONS

- (1) Ordinance 5881: Water Rate Increase (KMC 14.13.030, 14.13.040, 14.13.050, 14.12.100)
- (2) Ordinance 5882: Sewer Rate Increase (KMC 14.26.010, 14.26.20, 14.26.030, 14.26.040, 14.26.070). Cary Roe, Public Works Director reported on both items.

ORDINANCE NO. 5881

AN ORDINANCE RELATING TO WATER CHARGES AND AMENDING SECTIONS 14.13.030, 14.13.040, 14.13.050 AND 14.13.100 OF THE KENNEWICK MUNICIPAL CODE

Mayor Pro Tem Lee moved, seconded by Mr. Millbauer to adopt Ordinance No. 5881. The motion passed unanimously.

ORDINANCE NO. 5882

AN ORDINANCE RELATING TO SANITARY SEWER CHARGES AND AMENDING SECTIONS 14.26.010, 14.26.020, 14.26.030, 14.26.040 AND 14.26.70 OF THE KENNEWICK MUNICIPAL CODE

Mayor Pro Tem Lee moved, seconded by Mr. Millbauer to adopt Ordinance No. 5882. The motion passed unanimously.

6. PUBLIC HEARINGS/MEETINGS - None

7. NEW BUSINESS - None

8. COUNCIL COMMENTS/DISCUSSION

Council members reported on their respective activities.

10. ADJOURNMENT

Meeting adjourned at 7:07 p.m.

Terri L. Wright, CMC
City Clerk

Quasi-Judicial	<input type="checkbox"/>

Recommendation

Staff recommends that council authorize the City Manager to sign the Interlocal Agreement with the Port of Kennewick.

Motion for Consideration

I move to authorize the City Manager to sign the Interlocal Agreement with the Port of Kennewick regarding Fire Station #3.

Summary

The City of Kennewick and the Port of Kennewick have a long history of partnership on projects that are mutually beneficial to our community and the opportunity centers within the City of Kennewick. The attached interlocal agreement is another example of these many partnerships.

The proposed interlocal agreement that has been approved by the Port of Kennewick Commissioners, provides the mutually beneficial access and landscaping components for the road that is adjacent to Fire Station #3. Concurrent with the construction of the Fire Station, the City will build an access street with accompanying landscaping and utilities on the Northwest side of the station. The Port recognizes the benefit of this street to future activities in Vista Field and agrees to pay one-half of actual constructions costs of the street, up to \$125,000.

In addition to the initial construction of the street and improvements, the ongoing components of the agreement are:

Port of Kennewick - will maintain the street trees and associated irrigation and power systems to the tree wells

City of Kennewick - will grant the Port of Kennewick the right of ingress and egress from the public right of way to perform their obligations under the agreement

Alternatives

To not approve the interlocal agreement with the Port of Kennewick.

Fiscal Impact

This agreement provides up to \$125,000 from the Port of Kennewick to help pay for 1/2 of the access street, landscaping and utilities. In addition, the Port of Kennewick has committed to maintain the street trees, irrigation and power systems to the tree wells.

**INTERLOCAL AGREEMENT
BETWEEN PORT OF KENNEWICK AND CITY OF KENNEWICK
REGARDING FIRE STATION No. 3**

I. PARTIES

This Interlocal Agreement (Agreement) is entered into this ____ day of _____, 2020, between the PORT OF KENNEWICK, a Washington municipal corporation (“Port”), and the CITY OF KENNEWICK, a Washington municipal corporation, (“City”) referred to collectively as the “Parties”. The Parties agree as follows:

II. RECITALS

- 2.1 Economic Development Authority. The Port and the City are authorized, including under Chapters 39.33 and 39.34 of the Revised Code of Washington, to contract with each other and other public agencies in order to effectively and efficiently operate, administer and carry out their programs and public projects.
- 2.2 Overview of Project Areas. The Port owns approximately 103 acres of land in the Vista Field area of Kennewick, Washington. The Port is developing the land under the principles of New Urbanism and according to the Master Plan and Development Agreement the Port has in place with the City of Kennewick. The City is building a new fire station in the Vista Field area which will enhance public safety within the area and the City at large. The Parties recognize that successful development of the fire station described herein benefits the economic and social welfare of the City and the Port district.
- 2.3 City Fire Station Construction. The City is in the process of constructing Fire Station Number 3 on a site adjacent to Vista Field. Concurrent with construction, the City will build an access street with accompanying landscaping and utilities on the Northwest side of the project as shown on Exhibit “A” (the Street), attached hereto. Because the Street will benefit future Port activities at Vista Field, the Port agrees to pay one-half of actual construction costs of the Street, up to \$125,000, including a \$7,000 design and construction management fee. Prior to commencement of construction, the Port shall dedicate the Street to the City and the City shall accept said dedication.
- 2.4 Opportunity for Collaborative Development. The Parties recognize that successful economic development of the Project Area benefits the economic and social welfare of the City and the surrounding area. The Parties seek to memorialize their understanding related to street trees and landscaping which will be located in the public right of way adjacent to future Fire Station #3. The street trees and landscaping shall be as set forth on Exhibit “A” hereof. The term “street trees” shall refer to plants, trees, tree grates, tree lights and underground utilities supporting trees such as irrigation lines and electrical lines.

III. ADMINISTRATION

- 3.1 Responsibilities. This Agreement shall be administered by the City Manager or her designee and the Port Chief Executive Officer or his designee. Working in partnership and on behalf of their respective agencies these individuals shall be responsible for:
- a. Establishing policies for implementing this Agreement;
 - b. Providing periodic progress reports;
 - c. Monitoring progress of the Parties and other entities in the fulfillment of their respective responsibilities; and
 - d. Following applicable City and Port bid and prevailing wage laws, policies and procedures when awarding contracts for this project.
- 3.2 Port Obligation. The Port shall, at its expense, maintain all street trees and associated irrigation systems and power systems to the tree wells as referenced in Exhibit "A" and shall perform all ordinary maintenance and repair thereof.
- 3.3 City Obligation. The City shall grant the Port the right of ingress to and egress from the public right of way in order for the Port to perform its obligations under this Agreement.
- 3.4 Document Review. The Parties shall cooperate by sharing all relevant information, including planning, financial and environmental documents, to the extent allowed by law.
- 3.5 Expenses and Financial Contingency. Except as otherwise provided, the obligations of each Party shall be performed at the sole expense of said Party.

IV. GENERAL

- 4.1 Amendment. This Agreement shall not be altered except in writing signed by each Party.
- 4.2 Governing Law. Each of the Parties has independent authority to contract; and, this Agreement is pursuant to that authority and shall be governed by, construed and enforced in accordance with the substantive laws of the State of Washington.
- 4.3 Venue. The venue for any action arising out of this Agreement shall be the Superior Court for Benton County.
- 4.4 Non Waiver. Nothing in this Agreement and no actions taken pursuant to this Agreement shall constitute a waiver or surrender of any rights, remedies, claims or causes

of action a Party may have against the other Party or others under any provision of this Agreement or any provision of law.

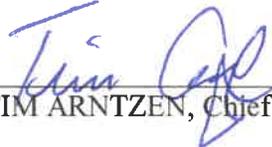

- 4.5 Agreement Term. The term of this Agreement shall commence on its execution by both Parties and end December 31, 2040 (“Agreement Term”). By mutual agreement, the Parties may elect to renew the Agreement on mutually agreeable terms and conditions.
- 4.6 Inspection of Records and Filing. The records and documents with respect to all matters covered by this Agreement shall be subject to inspection by the Parties during the term of this Agreement and for three years after its termination. This Agreement shall be filed or listed pursuant to RCW 39.34.040.
- 4.7 No Separate Legal Entity. It is not the intention that a separate legal entity be established to conduct the cooperative undertaking nor is the joint acquisition, holding or disposing of real or personal property anticipated.
- 4.8 Severability. In the event any term or condition of this Agreement or application thereof to any person, entity or circumstance is held invalid, such invalidity shall not affect any other terms, conditions or applications of this Agreement which can be given effect without the invalid term, condition, or application. To this end, the terms and conditions of this Agreement are declared severable.
- 4.9 Defense and Indemnity. Each party shall indemnify, defend, protect, hold harmless, and release the other, its officers, agents, and employees, from and against any and all claims, loss, proceedings, damages, causes of action, liability, costs or expense (including attorneys’ fees and witness costs) arising from or in connection with or caused by any act, omission, or negligence of such indemnifying party.
- 4.10 Breach. In the event of a breach of this Agreement, the non-breaching Party shall retain all legal and equitable remedies against the breaching Party.

V. EXECUTION AND APPROVAL

- 5.1 Warranty of Authority. Each Party to this Agreement warrants that it has the authority to enter into this Agreement.
- 5.2 Execution. The person executing for a respective Party has been duly authorized to and does execute the Agreement on behalf of that respective Party.

Recommendation

That Council approve the 2021 Tourism Promotion Area (TPA) Business and Marketing Plan.

Motion for Consideration

I move to approve the 2021 Tourism Promotion Area (TPA) Business and Marketing Plan.

Summary

At the October 13th workshop, Council received an update from Visit Tri-Cities. The 2021 TPA Budget and Marketing Plan was reviewed during the presentation. This plan was previously reviewed and approved by the Tri-City Regional Hotel-Motel Commission.

Alternatives

None.

Fiscal Impact

None.

2021 BUDGET & MARKETING PLAN

OPTION B

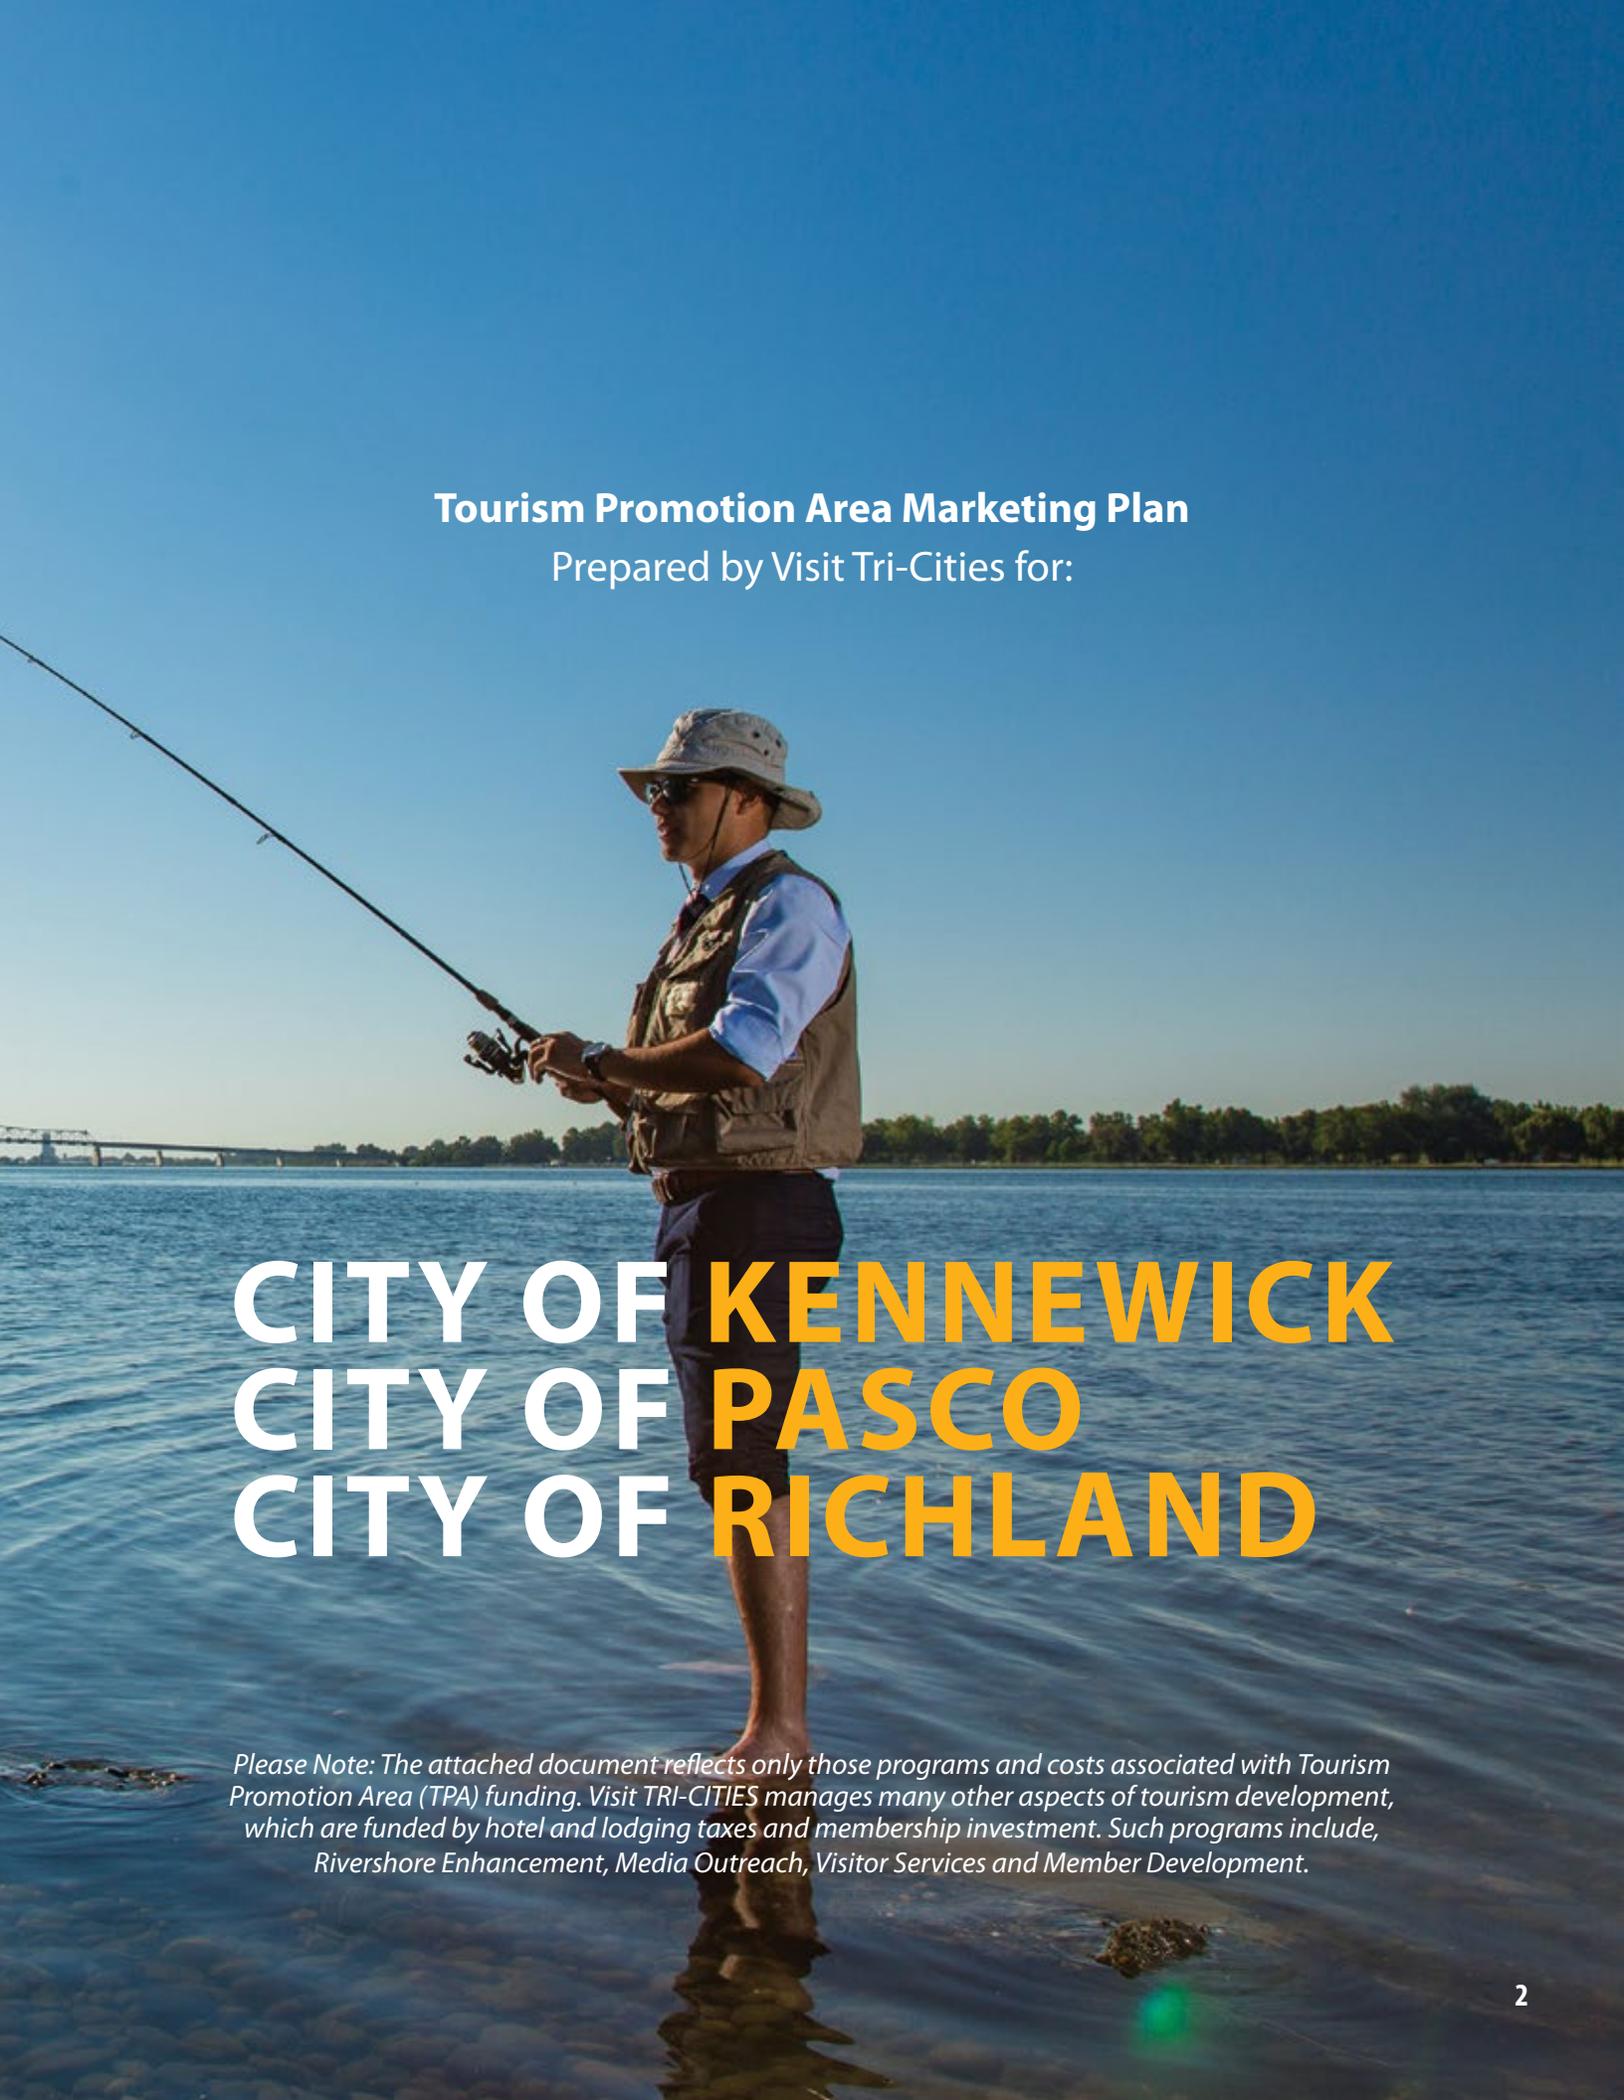

MISSION

To promote, market and sell the region as a preferred destination to visitors. We will develop incremental visitation by promoting our destination products, programs and activities; the overall economic vitality of our communities and the quality of life for our citizens.

VISION

To be an industry leader for destination marketing in the Pacific Northwest; the primary source of visitor information and the lead advocate for visitor industry development in the Tri-Cities region.

A man wearing a hat, sunglasses, and a fishing vest is standing in shallow water, holding a fishing rod. The background shows a large body of water and a distant bridge under a clear blue sky.

Tourism Promotion Area Marketing Plan

Prepared by Visit Tri-Cities for:

CITY OF KENNEWICK
CITY OF PASCO
CITY OF RICHLAND

Please Note: The attached document reflects only those programs and costs associated with Tourism Promotion Area (TPA) funding. Visit TRI-CITIES manages many other aspects of tourism development, which are funded by hotel and lodging taxes and membership investment. Such programs include, Rivershore Enhancement, Media Outreach, Visitor Services and Member Development.

PRESIDENT & CEO

MESSAGE

It is with great pleasure that I present the Visit Tri-Cities Destination Marketing plan for use of Tourism Promotion Area funds. This plan provides a detailed overview of the state of our industry and our planned endeavors to drive economic impact through visitor spending. Included you will find strategies to rebuild our meetings & conventions business, sports events, and leisure travel after the adverse effects experienced due to COVID-19. The good news is that wanderlust is alive and well; there is pent up demand for travel and the strategies outlined in this plan have been designed to capitalize on this.

Tourism is the tip of the spear as it relates to economic recovery and the Tri-Cities is poised to capitalize on this as industry recovery is expected to happen via drive markets. It's the return of the road trip. The Puget Sound is our primary drive market. Portland, Spokane and Boise are also drive markets for the Tri-Cities. Our community makes for an ideal drive destination when you consider our wide-open spaces, magical places (think the Heart of Washington Wine Country) and our incredible weather.

The activities outlined in this plan also help with traditional economic development endeavors as it all begins with a visit. The quality of life Visit Tri-Cities' endeavors foster helps aid in the recruitment of talent, the recruitment of businesses and the retention of talent, which is a boon for our region. The visitor economy also helps support local businesses, which creates a healthy business climate that fosters new business investment. The visitor economy also supports approximately 6,000 jobs locally.

Visitor spending this past year was roughly half-a-billion dollars. These dollars, along with the associated tax revenue generated by visitors, help to fund emergency services like police and fire, it supports teachers' salaries and the funding of our schools, it aids in the maintenance of our roads, our parks and so much more. In short, the visitor economy helps build a safe community, and educated community, an employed community and a beautiful community filled with many amenities for all residents of our region to enjoy.

Our entire team at Visit Tri-Cities is looking forward to rebuilding our tourism economy after the devastating impacts of the pandemic. We are launching numerous new digital platforms and a new website. We are also enhancing the abilities of our team with new skill sets and talents. All of this is being done for the benefit of our community as we grow our geographic reach, increase visitor engagement and drive visitor spending. We cannot wait to share our amazing community with a world that is eager to travel.

A handwritten signature in black ink, appearing to read "Michael A. [Signature]".

ACKNOWLEDGMENTS

We greatly appreciate the time and dedication of our city partners and hoteliers who meet monthly to provide Visit Tri-Cities with support and direction on how to invest the proceeds from the tourism promotion assessments collected in Kennewick, Pasco and Richland.

TOURISM 2021:

NATIONAL OUTLOOK

The effects of the pandemic on the tourism industry were both immediate and severe. At the end March the term “shuttering” became common speak as hotels in every market closed their doors. Perhaps hardest hit was Hawaii with a 90.7% drop in occupancy to 7%. During this same time STR reported that three quarters of all hotel rooms across the country were sitting vacant. There has been slight recovery in the third quarter of the year, but 2020 year-end forecasts still predict a 37.1% decline over 2019.

Furthermore STR predicts that U.S. hotel demand will not return completely to pre-pandemic levels until 2023, in fact “we expect it to take 11 quarters for the number of room nights sold to rise to the corresponding levels of 2019,” said Jan Freitag, STR’s senior vice president of lodging insights.

U.S. Forecast - % Change (June 2020 Update)

Key Performance Indicators (% Change vs. Prior Year)
2019A-2020F-2021F

Metric	2019 Actual	2020 Forecast	2021 Forecast
Supply	+2.0%	-4.4%	+5.5%
Supply (Total Room Inventory)*	+2.0%	+1.4%	+1.3%
Demand	+1.9%	-36.2%	+35.4%
Occupancy	-0.1%	-37.1%	+33.7%
ADR	+0.9%	21.4%	+5.2%
RevPar	+0.8%	-50.6%	+40.6%

REGIONAL OUTLOOK

What were originally believed to be the very first cases of COVID 19 in the U.S. were discovered in Seattle around the first of March 2019. Demand for business and leisure travel quickly plummeted and by the first week of April hotel occupancies were hovering at around 10%. Soon other large cities in the Northwest experienced similar declines, although none quite as severe as Seattle. The pandemic, coupled with civil unrest, has hampered the already slow recovery for large cities as traveler sentiments favor rural destinations, which are viewed as safe and provide wide open spaces.

The economic effects are devastating. Tourism Economics, an Oxford Economics Company, provided the below analysis for the eight-week period between June 7 and August 1, 2020 as reported by the U.S. Travel Association:

Weekly Year on Year Change in Visitor Spending for Washington State (in millions)

Week ending	June 13	June 20	June 27	July 4	July 11	July 18	July 15	August 1
Visitor spending	-\$273	-\$265	-\$255	-\$214	-\$247	-\$245	-\$244	-\$222

The loss in state taxes due to the fall out in visitor spending over the same time period, just eight short weeks, is estimated at \$24 million.

TRI-CITIES AREA OUTLOOK

The impact of the pandemic has been challenging for all communities, but the Tri-Cities was especially hard hit. In April, confirmed cases of the virus in Benton and Franklin Counties lagged behind the rest of the state. By mid-May the number of residents infected per capita rose rapidly.

As the summer months began Benton and Franklin Counties found themselves in the unenviable position of being identified as a “hot spot” in Washington State and not suitable for moving to the more desirable phases of the Governor’s Safe Start Washington recovery plan. This hit the tourism industry especially hard as the modified Phase 1 prohibited most non-essential travel, all inside dining, and for months only take-out was allowed for restaurants and wineries.

Visit Tri-Cities took proactive measures, promoting tourism related businesses to local residents and encouraging increased patronage to create financial support for the industry. The return of visitors has been slow but continues to inch forward.

The positive news is that studies show traveler sentiments indicate that once they are able to travel, visitors are looking forward to family trips to locations that can be reached by car and that feature outdoor recreation, wide open spaces and clean and safe facilities.

We will continue our efforts to secure conventions and sporting events but will refocus new campaigns on the leisure traveler with features such as Bandwango packaged experiences and community passes.

2020 Performance January - August				
	OCC	ADR	RevPar	RevPar vs Prior Year
Seattle	36.8%	\$133.49	\$49.17	-67.5%
Spokane	41.9%	\$90.59	\$37.95	-52.3%
Tacoma	51.9%	\$91.42	\$47.47	-39.5%
Tri-Cities	40.3%	\$83.90	\$33.78	-44.8%
Vancouver	50.3%	\$91.61	\$46.06	-45.5%
Yakima	34.2%	\$82.97	\$28.37	-48.1%

COMPETITIVE SITUATION ANALYSIS

In order to promote the Tri-Cities as a preferred destination for group, business and leisure travelers, it is important to recognize both the strengths and challenges within our community and to set sales strategies accordingly.

CONVENTION & SPORTS

Destination Strengths

- Variety of Hotels
- Sports infrastructure
- Positive Relationship Between Hotels and Meeting Venues
- Three Rivers Convention Center
- HAPO Center
- Strong Sports Council
- Competitive Pricing
- Complimentary parking and wi-fi offered at all hotels and meeting venues
- Opportunity Funds Available

Destination Challenges

- Lack of Hotel Capable for 300+ Room Block
- Meeting venues with larger meeting space in competing locations
- Lack of Resort-Style Hotels with Meeting Space
- Number of Meeting Rooms & Exhibit Space Available Under One Roof at Large Facilities
- Lack of sports officials
- Lack of Multi-Use Sports Facilities
- Number of hotel rooms within walking distance of Convention Centers
- Planners inability to make decisions in the current COVID-19 environment
- Lack of sports field availability
- Distance from I-5 corridor vs. competition
- Destinations at more advanced Safe Start Washington Phases than Tri-Cities are able to allow groups to gather, including larger sized groups.

LEISURE TRAVEL

Destination Strengths

- Heart of Washington Wine Country
- Agritourism Assets: Farmers' Markets and Festivals
- Travel Writer Outreach
- STEM Tourism Assets
- Hanford B Reactor Tours
- Water2Wine Cruise
- Trail Systems
- Weather
- Water Recreation
- Quality Restaurants & Retail Businesses
- Riverfront Amenities

Destination Challenges

- Seasonal Demand
- Mountain & Snow Winter Driving
- Difficult to Track
- Budget Sensitive
- Heavy Weekend Traffic on I-90
- Perceived Lack of Family Activities
- Price of Airfare / Inconvenience of Air Travel

BUSINESS TRAVEL

Destination Strengths

- Less Price Sensitive for Airfare and Hotels
- Recently Expanded Tri-Cities Airport
- Mid-week Demand Complements Weekend and Convention Groups
- Direct Flights From Denver, Salt Lake City, Seattle, Mesa/Phoenix, San Francisco and Minneapolis

Destination Challenges

- Destination Choice not Influenced by Outside Forces
- Very Dependent on Hanford Business Trends
- Some flights cancelled in 2020 may be slow to return
- Mostly Mid-Week Travel
- Business travel reductions due to Covid-19

CONVENTION SALES

The outlook for large conventions in the near term (2021) is somewhat concerning. The pandemic has turned the meetings industry upside down. Visit Tri-Cities has worked on the local and state level to create a path forward to allow groups to meet when protocols are observed, but the progress has been slow. Without a clear definition of when people can congregate, meeting planners are unable to make decisions. However, the recent turn of events has taught us that people need social interaction and the meetings and conventions segment will recover, albeit slower than business, leisure, and tournament-based travel. Destination Analysts conducted a national survey of 300 meeting planners in June of 2020 and they found that for those planners postponing events due to the pandemic, over 60% indicated it would be April of 2021 or later before the events take place and 48.5% indicated that at least a portion of any live event would include a virtual component. Furthermore, the sentiment by 71% of planners was that it will be the second half of 2021 or beyond before meetings return to normal. The typical booking window for conventions in the Tri-Cities is one to two years out on average, which will mean the competition will be fierce in 2021, not only to book events taking place in 2021, but to secure events for 2022 and beyond in what will clearly be a "buyer's market".

2021 ACTIONS

Sales Blitzes: Develop two separate multi-day sales blitzes in Spring (Olympia) and Fall (location to be determined). If face to face sales appointments are not feasible, virtual events with meeting planners may be substituted.

Customer Events: Organize meeting planner customer luncheon in the spring to promote the Tri-Cities as a destination. Event to be held in conjunction with Spring Sales Blitz.

Arrange and host an offsite dinner and reception to be held during the Washington Society of Association of Executives 2021 Annual Conference taking place in the Tri-Cities June 9-11, 2021.

Meeting Planner FAM Tours: Host qualified meeting planners for individuals, customized FAM tours.

Relationships: Continue staff attendance at Washington Society of Association Executives (WSAE) and Meeting Professionals International (MPI) Washington Chapter and Professional Convention Management Association (PCMA) monthly/quarterly meetings to strengthen relationships with key meeting planners.

Opportunity Fund: Utilize the opportunity fund specifically to offset costs for groups that block more than 300 rooms per night city-wide.

Regional/State/National Conferences and Tradeshows: Attend the 2021 National Tour Association (NTA), Washington Society of Association Executives (WSAE) and Meeting Professionals International (MPI) Cascadia Annual Conferences. Participate in additional sponsorship opportunities at each of these events for increased exposure.

CONVENTION SALES PROGRAM TOTAL:

DIRECT HOTEL SPENDING

The outlook for sporting events and tournaments is a little brighter, perhaps in part because the attendees are so eager to return to normalcy. Coupled with this is the fact that many sporting events take place outdoors where it is easier to practice healthy protocols. There will be challenges to accommodate the changing schedule of events as high school state athletics move fall sports from 2020 to spring of 2021, creating scheduling conflicts and compression for the demand of facilities.

2021 ACTIONS

- **Sports Council:** Organize and administer activities for the Tri-Cities Sports Council.
- **Advertising:** Place print and digital advertising as appropriate in publications such as: Sports Events, Sports Destination Management, and Connect Sports.
- **Sales Blitz:** Conduct two days of dedicated face to face sales calls in October.
- **Promote Resources:** Update the sports facilities guide.
- **FAM Tours & Services:** Arrange both virtual and in-person site inspections for tournament planners, provide tools and information for promotional purposes and provide on-site support to tournament planners during their events.
- **Opportunity Fund:** Utilize the opportunity fund specifically to offset tournament costs for groups that block more than 300 rooms per night city-wide.
- **Tradeshows:** Promote the Tri-Cities as a premier sports destination at National Tradeshows Events such as TEAMS, S.P.O.R.T.S, Esports Travel Summit, and Sports ETA.
- **Customer Events:** Sponsor events at annual national sports tradeshows.
- **Bidding Fees:** Bid on new regional/national level tournaments that demand bidding fees to host events.

SPORTS PROGRAM TOTAL: \$71,910

Advertising

Miscellaneous Ads to support tournaments: \$925
(\$100 Jan; \$150 Mar; \$325 May; \$200 Nov; \$150 Dec)

National Association of Sports Commissions (NASC) Membership: \$795 (Dec)

TOURIST DEVELOPMENT

2021 ACTIONS

- **Website:** The Visit Tri-Cities website, VisitTri-Cities.com, is the one of the organization's primary marketing tools and all campaigns direct consumers to the website. In early 2021 Visit Tri-Cities will launch a newly designed website featuring improved digital technology and user interface/user experience capabilities.
- **Promote the Destination:** Promote increased leisure travel through development of campaigns targeting wine enthusiasts, golfers, outdoor adventurers and STEM tourism; particularly those visitors residing within a few hours drive.
- **TBEX:** In August the Tri-Cities will host TBEX, which will attract 550-600 travel bloggers to the region. While here they will enjoy four days of activities and 50 select bloggers will be hosted for pre-conference familiarization experiences. The exposure the community will receive as these 550 content creators share their experiences with their followers is invaluable and unparalleled to previous media outreach efforts.
- **Travel Trade Shows:** Target wine enthusiasts through Taste Washington (tentative) and Vintage Spokane.
- **Materials:** Develop marketing materials including the Official Tri-Cities Visitor Guide. In 2021 we will migrate to digital publications, reducing the number of hard copy marketing pieces produced. Most visitors access information digitally and in a post-Covid environment many people are leary of traditional paper publications. Digital publications are also easier to update and keep current, which benefits the user as well as tourism-based businesses and attractions.
- **Advertise:** Digital and social media advertising will supplement the traditional advertising. The advertising budget calls for a little more flexibility to target not only seasonal needs as they arise, but to allow for flexibility. Government regulations for travel are uncertain and consumer sentiment may change the way people travel and what attractions are popular. Our marketing strategies and campaigns will be nimble and will primarily focus on drive-in markets until consumer confidence in air travel returns. The Puget Sound region will continue to be key for regional campaigns because the largest population is centered there. National campaigns will be added where it makes sense.
- **Social Media:** Visit TRI-CITIES promotes the destination through Tri-Cities WA (24,976 followers) on Facebook, as well as through Twitter, Instagram, and Pinterest.
- **Technology:** We will continue to lead the industry in technology and improve visitor experience by investing in programs and platforms such as Bandwango (visitor passes and packages); SkyNav (virtual 360 tours of community attractions) See Source (consumer analytics) and Kuula (virtual site inspections for meeting and sports facilities).
- **Tri-Cities Wine Tourism Council:** There has long been the need to assist wine industry related businesses in becoming more cohesive and organized in order to market the region. Visit Tri-Cities staff provides management and leadership for the Tri-Cities Wine Tourism Council, which works on marketing projects designed to increase wine tourism.
- **Packages:** Work with member hotels to showcase their existing packages to travel media and on the Visit Tri-Cities website.
- **Consumer e-News:** User generated content on the website and social media channels will be supplemented by quarterly consumer newsletters targeted to interest groups (outdoor recreation, wine, science) to compel readers to plan leisure travel to the region.

TOTAL TOURISM DEVELOPMENT PROGRAM COST: \$612,175

Council Agenda Coversheet

Agenda Item Number	3.f.	Council Date	10/20/2020
Agenda Item Type	Contract/Agreement/Lease		
Subject	City/WSDOT Agreements for US395/Ridgeline Dr		
Ordinance/Reso #		Contract #	
Project #	P1402	Permit #	
Department	Public Works		

Consent Agenda	<input checked="" type="checkbox"/>
Ordinance/Reso	<input type="checkbox"/>
Public Mtg / Hrg	<input type="checkbox"/>
Other	<input type="checkbox"/>
Quasi-Judicial	<input type="checkbox"/>

Recommendation

The Council authorize the Mayor to sign franchise and maintenance agreements with WSDOT for the US395/Ridgeline Drive Interchange project.

Motion for Consideration

I move to authorize the Mayor to sign franchise and maintenance agreements with WSDOT for the US395/Ridgeline Drive Interchange project.

Summary

As part of the US395/Ridgeline Drive Interchange project, the contractor will install City facilities within right-of-way owned by WSDOT. This requires franchise agreements for the following items:

1. City water line
2. City sewer line

3. Additionally, a maintenance agreement addresses which agency will perform long term maintenance of various infrastructure within the project limits.

The City Attorney has reviewed and approved each of these agreements as to form.

Staff recommends approval and execution of all three agreements.

Alternatives

None recommended

Fiscal Impact

Minor long-term costs for maintenance of City infrastructure within WSDOT right-of-way.

Through	Bruce Mills Oct 13, 15:39:45 GMT-0700 2020
Dept Head Approval	Cary Roe Oct 13, 15:42:59 GMT-0700 2020
City Mgr Approval	Marie Mosley Oct 16, 10:18:50 GMT-0700 2020

MAINTENANCE AGREEMENT

City of Kennewick - Washington State Department of Transportation (GMB 1183)
US 395, Ridgeline Drive Construct Interchange

THIS AGREEMENT is between the Washington State Department of Transportation, hereinafter "WSDOT," and City of Kennewick, hereinafter the "LOCAL AGENCY;" collectively hereinafter the "Parties."

RECITALS

1. WSDOT and the LOCAL AGENCY are planning the construction or improvement of a section of the state route as identified above, hereinafter referred to as the "Project."
2. WSDOT and the LOCAL AGENCY entered into agreement GCB 3138, executed September 14, 2020 in which WSDOT and the LOCAL AGENCY planned construction of an interchange on US 395 at the intersection of Ridgeline Drive, between MP 13.78 to MP 14.03, and agreed to execute a Maintenance Agreement prior to the Project completion and acceptance.
3. The LOCAL AGENCY has acquired and/or is in the process of acquiring right-of-way and limited access rights needed for WSDOT to construct, reconstruct, or rearrange the state route and/or certain streets or roads, frontage roads, access roads, intersections, ramps, crossings, and /or other roadway features, hereinafter referred to as "Property or Properties" as agreed in the GCB 3138 Agreement Section 10.1.
4. WSDOT and LOCAL AGENCY enter into this Agreement to identify responsibilities of right-of-way maintenance, operation, and process for ownership transfer.

NOW THEREFORE, pursuant to RCW 47.08.070 and RCW 39.34, the above recitals that are incorporated herein as if fully set forth below, and in consideration of the terms, conditions, covenants, and performances contained herein, and the attached Exhibits which are incorporated and made a part hereof, It Is Mutually Agreed as Follows:

1. RIGHT-OF-WAY

1.1 Upon completion of the Project certifying right-of-way, limited access rights, and properties, as shown on the following Exhibits, the Project will require maintenance, operation, and ownership transfer by deed or other conveyance from the LOCAL AGENCY to WSDOT.

1.2 The LOCAL AGENCY agrees to convey ownership of the right-of-way, limited access rights, and properties as shaded, where applicable, on Exhibit B, as follows:

Red	Indicates access control and access rights to be conveyed to WSDOT
Blue (light)	Indicates Properties and right-of-way to be conveyed in fee to WSDOT

1.3 The LOCAL AGENCY agrees to accept maintenance and operations of the properties in accordance with Exhibits A, B, C, D, E, and F.

2. RECORDED CONVEYANCE

2.1 Within one year following this agreement upon signature by both parties the LOCAL AGENCY will furnish WSDOT with a recordable conveyance of right-of-way, limited access rights, including the properties constructed thereon, as shown on the plans marked Exhibit B. The conveyance will be recorded pursuant to RCW 65.08.095.

2.2 WSDOT agrees to accept the deed transferring ownership to WSDOT subject to all matters of record. In Witness Whereof, the Parties hereto have executed this Agreement on the Party's date last written below.

3. MAINTENANCE BY LOCAL AGENCY

3.1 The LOCAL AGENCY agrees to maintain the features constructed by the Project that are outlined in this agreement in perpetuity, at the LOCAL AGENCY's sole cost and expense. Maintenance and preservation of all features included in this agreement shall hereinafter be referred to as "Work." This Work does not include future improvements. Any proposed improvements shall be negotiated in another agreement, if needed.

3.2 WSDOT hereby grants to the LOCAL AGENCY a right of entry upon the WSDOT right-of-way for the purpose of performing all maintenance and/or repair work as described in this Agreement.

3.3 The LOCAL AGENCY shall not perform any work authorized under this Agreement in such a manner as to conflict with, impede or disrupt in any way WSDOT highway operation, construction, or maintenance, or interfere with or endanger the safety of the traveling public or pedestrians. The LOCAL AGENCY agrees that all traffic control for any maintenance or repair work within the right-of-way shall be in compliance with the Manual on Uniform Traffic Control Devices (MUTCD) and/or the WSDOT's Work Zone Traffic Control Guidance M54-44.

3.4 The LOCAL AGENCY shall maintain the following features:

3.4.1 Roadway Surfaces

The LOCAL AGENCY assumes all responsibilities for; roadway, roadway prism, and roadside features of Ridgeline Drive including stability of cut & fill slopes adjacent to Ridgeline Drive. Refer to Exhibit C.

3.4.2 Stormwater

The LOCAL AGENCY is responsible for stormwater facilities that serve to provide for the removal of water from Ridgeline Drive. Refer to Exhibit D.

3.4.3 Winter Operations

The LOCAL AGENCY is responsible for plowing the roadway of Ridgeline Drive, connecting Plaza Way roundabout, S. Zintel Way, and S. Bofer Canyon road.

3.4.4 Signage

The LOCAL AGENCY is responsible for all directional signs/route markers, regulatory, and warning signs outside of established turnback limits. Refer to Exhibit E.

3.4.5 Striping, channelization, and ADA Features

The LOCAL AGENCY is responsible for the items within Ridgeline Drive roadway and adjacent pedestrian intended structures.

3.4.6 Illumination

The Welcome Sign, conduit and wire shown on Sheet 3 of Exhibit F will be the sole responsibility of the LOCAL AGENCY for maintenance. The LOCAL AGENCY agrees to pay the monthly bill for the Ridgeline utility service; therefore, the LOCAL AGENCY will own the meter of the Ridgeline Drive service by entering into a service agreement with Benton PUD. At such time the LOCAL AGENCY requests modifications to the illumination system within the Ridgeline Interchange, WSDOT reserves the right to review and approve such changes.

3.4.7 Graffiti Removal and Vandalism

The LOCAL AGENCY is responsible for removing graffiti from the Ridgeline Drive tunnel and both service cabinets. Graffiti should be removed within 30 days of notification. Graffiti of a graphic or offensive nature shall be removed within 3 business days of notification.

3.4.8 Aesthetics

The LOCAL AGENCY is responsible for any public art, City Welcome Sign, and any added feature for aesthetics outside of state standards.

4. MAINTENANCE BY WSDOT

4.1 WSDOT agrees to maintain the features constructed by the Project that are outlined in this agreement in perpetuity, at WSDOT sole cost and expense. Maintenance and preservation of all features included in this agreement shall hereinafter be referred to as "Work." This Work does not include future improvements. Any proposed improvements shall be negotiated in another agreement, if needed.

4.2 WSDOT shall maintain the following features:

4.2.1 Roadway Surfaces

WSDOT is responsible for roadways surfaces and sidewalks within the eastern roundabout and entering/exiting ramps. Refer to Exhibit C.

4.2.2 Stormwater

WSDOT is responsible for stormwater facilities intended for water removal from US 395, ramps entering/exiting, and east end roundabout structure. WSDOT will maintain Infiltration Ponds 1 and 3. Refer to Exhibit D.

4.2.3 Winter Operations

WSDOT is responsible for plowing the ramps entering/exiting and the connecting roundabout.

4.2.4 Signage

WSDOT is responsible for all items in this section within established turnback limits. Refer to Exhibit E.

4.2.5 Striping, channelization, and ADA Features

WSDOT is responsible for channelization items within eastern roundabout structure, entering/exiting ramps and US 395.

4.2.6 Illumination

WSDOT is responsible for the maintenance and operation of all illumination within the Ridgeline Drive Interchange. WSDOT will own the service cabinets and systems with the exception of the Welcome Sign conduit shown on Sheet 3 of Exhibit F. WSDOT obligation to maintain luminaires 47 and 48 does not include any damage caused by third party damage. If third party damage occurs for these two luminaires located on the LOCAL AGENCY owned property, the LOCAL AGENCY shall restore them. If the LOCAL AGENCY requires WSDOT to restore these two luminaires, the LOCAL AGENCY will contact WSDOT to establish a reimbursable account to pay WSDOT for their costs of the repairs.

4.2.7 Structures

WSDOT is responsible for all bridge related maintenance, inspections, and evaluation of the new US 395 structure over Ridgeline Drive.

4.2.8 Graffiti Removal and Vandalism

WSDOT is responsible for removing graffiti from the Ridgeline Drive bridge structure, and the textured faces of the approach walls to the undercrossing. Graffiti should be removed within 30 days of notification. Graffiti of a graphic or offensive nature shall be removed within 3 business days of notification.

5. NOTIFICATION

5.1 LOCAL AGENCY Requested Work

5.1.1 At the time the LOCAL AGENCY determines any Work is necessary, the LOCAL AGENCY shall provide notification to WSDOT'S AREA MAINTENANCE SUPERINTENDENT including a description of proposed Work, plans and specifications (if available) and proposed Traffic Control Plan/Procedures a minimum of 14 days prior to Work.

5.1.2 WSDOT will review and comment on Work or issue written approval within 10 days from receipt of plans and specifications.

5.1.3 Upon completion of the Work, the LOCAL AGENCY shall notify WSDOT for final inspection and acceptance.

6. FAILURE TO PERFORM MAINTENANCE AND EMERGENCY MAINTENANCE

6.1 WSDOT reserves the right to maintain the Project features located within state-owned right-of-way to the extent necessary for the safe operation and maintenance of the highway, should the LOCAL AGENCY fail to perform its maintenance responsibilities pursuant to this Agreement.

6.1.1 If the LOCAL AGENCY fails to perform any Work obligations, WSDOT will notify the LOCAL AGENCY of the areas of maintenance that must be completed, and the LOCAL AGENCY agrees to perform such Work within thirty (30) calendar days. If the LOCAL AGENCY does not perform the Work deemed necessary by WSDOT, WSDOT reserves the right to perform maintenance in accordance with minimum WSDOT highway standards.

6.1.2 The LOCAL AGENCY agrees that if WSDOT performs any maintenance activities which are the responsibility of the LOCAL AGENCY, the LOCAL AGENCY shall reimburse WSDOT for its actual direct, and related indirect costs, for all Work performed on behalf of the LOCAL AGENCY within thirty (30) days of invoice from WSDOT (the "Due Date").

6.1.3 The LOCAL AGENCY agrees to reimburse WSDOT for all maintenance costs within thirty (30) calendar days from receipt of a documented WSDOT invoice.

6.2 WSDOT reserves the right to determine if Project features located within state-owned right-of-way require emergency maintenance necessary for the safe operation of the highway. WSDOT will notify the LOCAL AGENCY of such emergency maintenance within 5 business days of completion of work. If WSDOT determines that the emergency was due to failure to perform as noted in Section 6.1 above, WSDOT will invoice the LOCAL AGENCY as described in Sections 6.1.2 and 6.1.3.

7. REPRESENTATIVE CONTACTS

7.1 WSDOT's contact representative will be the Area 3 Maintenance Superintendent, currently Kara Shute, or their designee, 1816 N 4th Ave, Pasco, WA 99301. (509) 948-0178, ShuteK@wsdot.wa.gov.

7.2 The Local Agency's representative will be the Deputy Public Works Director, currently Bruce Mills, or their designee, P.E., 210 W 6th Ave, Kennewick, WA 99336. (509) 585-4431, Bruce.Mills@ci.kennewick.wa.us.

8. TERMINATION

This Agreement may only be terminated or modified by the mutual written consent of the Parties.

9. GENERAL TERMS

9.1 Integration

This Agreement constitutes the final and complete integrated agreement between the Parties concerning its subject matter. This Agreement shall be interpreted to the extent that it was mutually drafted.

9.2 Modification

No modification or amendment of this Agreement is valid unless evidenced in writing and signed by both Parties. No verbal agreement may supersede, replace or amend this section.

9.3 Severability

Should any part, term or provision of this Agreement be determined to be invalid, the remainder of this Agreement shall not be affected, and the same shall continue in full force and effect.

10. INDEMNIFICATION

10.1 The LOCAL AGENCY agrees to provide indemnification for and defense of personal injury or property damage claims and will cover WSDOT to the same extent as the LOCAL AGENCY.

10.2 The LOCAL AGENCY shall protect, defend, indemnify and hold harmless WSDOT, its employees and authorized agents from any and all costs, claims, judgments and/or awards of damages (both to persons or property), including attorneys' fees and costs, arising out of, or in any way resulting from the LOCAL AGENCY actions performed pursuant to the provisions of this Agreement; provided, however, the LOCAL AGENCY will not be required to indemnify, defend or hold harmless WSDOT if the claim, suit or action for injuries, death or damages (both to persons or property) is caused by the sole negligence of WSDOT, its employees or authorized agents. Where such claims, suits, or actions result from the concurrent negligence of both WSDOT and its employees or authorized agents and LOCAL AGENCY, its employees, authorized agents, contractors, and/or subcontractors, the indemnity provisions provided herein shall be valid and enforceable only to the extent of each Party's own negligence, subject to the limitations of RCW 4.24.115.

10.3 The LOCAL AGENCY specifically assumes potential liability for the actions brought by LOCAL AGENCY's employees and solely for the purposes of this indemnification and defense, LOCAL AGENCY specifically waives any immunity under the State Industrial Insurance Law, Title 51 RCW. LOCAL AGENCY acknowledges and agrees that this waiver was the subject of mutual negotiations.

10.4 This indemnification shall survive the termination of this Agreement.

10.5 The LOCAL AGENCY is insured through WCIA, a risk pool. The LOCAL AGENCY shall keep in force for the duration of the construction and maintenance Work under this Agreement, public liability and property damage insurance with companies or through sources approved by the State Insurance Commissioner pursuant to Title 48 RCW. The amount of coverage shall be not less than a single limit of \$2,000,000 for bodily injury, including death and property damage per occurrence. The LOCAL

AGENCY shall furnish WSDOT proof of coverage limits prior to undertaking any Work covered by this Agreement.

11. RECORDS AND AUDIT

All records for maintenance, operation and/or repair Work done pursuant to this Agreement shall be held and kept available for inspection and audit by WSDOT, the LOCAL AGENCY and the Federal government for a period of six (6) years from the date of termination of this Agreement or any final payment authorized under this Agreement, whichever is later. Each Party shall have full access to and right to examine said records, during normal business hours and as often as it deems necessary. Should a Party require copies of any records from the other Party, the requesting Party agrees to pay the costs thereof. In the event of litigation or claim arising from the performance of this Agreement, the LOCAL AGENCY and WSDOT agree to maintain the records and accounts until such litigation, appeal or claims are finally resolved. This section shall survive the termination of this Agreement.

12. DISPUTES

The Parties shall Work collaboratively to resolve disputes and issues arising out of, or related to, this Agreement. Disagreements shall be resolved promptly and at the lowest level of hierarchy. To this end, following the dispute resolution process in Sections 10.1A through 10.1D shall be a prerequisite to the filing of litigation concerning any dispute between the Parties:

A. The Representatives designated in this Agreement shall use their best efforts to resolve disputes and issues arising out of, or related to, this Agreement. The Representatives shall communicate regularly to discuss the status of the tasks to be performed hereunder and to resolve any disputes or issues related to the successful performance of this Agreement. The Representatives shall cooperate in providing staff support to facilitate the performance of this Agreement and the resolution of any disputes or issues arising during the term of this Agreement.

B. A Party's Representative shall notify the other Party in writing of any dispute or issue that the Representative believes may require formal resolution according to Section 5.1D. The Representatives shall meet within five (5) working days of receiving the written notice and attempt to resolve the dispute.

C. In the event the Representatives cannot resolve the dispute or issue, the LOCAL AGENCY's Mayor, and WSDOT's Olympic Region Administrator, or their respective designees, shall meet and engage in good faith negotiations to resolve the dispute.

D. In the event the LOCAL AGENCY's Mayor and WSDOT's Olympic Region Administrator, or their respective designees, cannot resolve the dispute or issue, the LOCAL AGENCY and WSDOT shall each appoint a member to a disputes board. These two members shall then select a third member not affiliated with either Party. The three-member board shall conduct a dispute resolution hearing that shall be informal and unrecorded. All expenses for the third member of the dispute board shall be shared equally by both Parties; however, each Party shall be responsible for its own costs and fees.

13. VENUE

In the event that either Party deems it necessary to institute legal action or proceedings to enforce any right or obligation under this Agreement, the Parties hereto agree that any such action or proceedings shall be brought in the superior court situated in Spokane County, Washington. Further, the Parties agree that each will be solely responsible for payment of its own attorneys' fees, witness fees, and costs.

14. INDEPENDENT CONTRACTOR

Parties shall be deemed an independent contractor for all purposes, and the employees of each Party or any of its contractors, subcontractors, consultants, and the employees thereof, shall not in any manner be deemed to be employees of the other Party.

IN WITNESS WHEREOF, the Parties hereto have executed this Agreement to be effective as of the date last signed below.

Responsibilities Continued.		
Maintenance Item	Local Agency	WSDOT
Graffiti in the tunnel and any service cabinets	X	
Landscaping, irrigation and decorative items [Guideline C]	Note 2	

Guidelines:

[A] – The Local Agency has the responsibility for snow removal within their jurisdiction and that WSDOT shall, when necessary, plow the snow on the roadway. The meaning of "when necessary" is that WSDOT will plow snow, with the Local Agency's concurrence, on the traveled lane of the state highway on the way through the cities not having adequate snow plowing equipment. The Local Agency must contact WSDOT before using chemicals on structures.

[B] – Grass-lined swales constructed by WSDOT solely for state highway runoff will be maintained by WSDOT.

[C] – General Statements;

For replacing traffic devices for a more "aesthetically pleasing" device WSDOT is responsible for the basic cost including replacement. The Local Agency is responsible for any incremental costs over the WSDOT basic costs. Such as, the city is responsible for any incremental cost for any finish on signal poles and all other poles that is above the state standard galvanized finish and betterments beyond state standards.

Per WSDOT Design Manual M22-01.11 section 950.01 and section 40 of the State Constitution specifies that gas tax money must be used for a "highway purpose." Therefore, public art beyond WSDOT the standard design and will be the responsibility of the Local Agency.

Notes:

[1] – The Local Agency has assumed the responsibility for the roadway of Ridgeline Drive within Turnback limits. The Local Agency must notify WSDOT at least 14 business days prior to implementing traffic control that may impact traffic movement of the highway ramps.

[2] – Landscaping, irrigation systems, "welcome" signs and any other decorative items are the Local Agency's responsibility.

[3] – Directional signs to state routes/markers within Turnback limits are the responsibility of WSDOT, all others outside of Turnback limits are the responsibility of the Local Agency. Regulatory and warning signs within Turnback limits are the responsibility of WSDOT, all others outside of Turnback limits are the responsibility of the Local Agency. Signs must meet WSDOT standards for height inside of Turnback limits. WSDOT Bridge and Structures Office approval required if mounting to structures See Exhibit E.

[4] – The WSDOT has responsibility for maintenance of all illumination systems except for the area shown in orange on Exhibit F, Sheet 3 of 3.

[5] – Drainage and culverts that cross Ridgeline Drive and are used solely for the removal of water from Ridgeline Drive are the responsibility of the Local Agency regardless of Turnback limits. Drainage and culverts used for water removal from all other state highway systems within the Turnback limits are the responsibility of WSDOT. See Exhibit D.

CONSTRUCTION NOTES:

POST LENGTHS SHOWN ARE APPROXIMATE. FINAL VALUES SHALL BE DETERMINED IN THE FIELD PRIOR TO FABRICATION.
 FOR STRUCTURE AND MOUNTING DETAILS SEE STANDARD PLAN SHEET SERIES "G".
 FOR CODE REFERENCES AND STANDARD DETAILS SEE WASHINGTON STATE SIGN FABRICATION MANUAL.
 ALL SINGLE POST SIGNS OVER 28 INCHES SHALL HAVE BRACING PER STANDARD PLAN G-50.10
 FOR GROUND MOUNTED SIGN PLACEMENT REQUIREMENTS, SEE STANDARD PLAN G-20.10
 INSTALL 3M PROTECTIVE OVERLAY FILM 1160 OR APPROVED EQUAL TO SIGN SHEETING AS A PROTECTIVE GRAFFITI OVERLAY

CONSTRUCTION NOTES:

- CONSTRUCT LUMINAIRE FOUNDATION PER WSDOT STD. PLAN J-26.30. INSTALL STEEL LIGHT STANDARD WITH TYPE 1 LUMINAIRE MAST ARM PER WSDOT STD. PLAN J-26.10.
- CONSTRUCT ELECTRICAL SERVICE FOUNDATION PER WSDOT STD. PLAN J-10.10. INSTALL 200 AMP ELECTRICAL SERVICE CABINET TYPE E PER WSDOT STD. PLAN J-10.22. REFER THIS SHEET FOR BREAKER SCHEDULES.
- INSTALL JUNCTION BOX PER WSDOT STD. PLAN J-40.10.
- INTERCEPT EXISTING CONDUIT. ROUTE NEW CONDUCTORS THROUGH EXISTING CONDUIT.
- REMOVE EXISTING HIGH PRESSURE SODIUM (HPS) LIGHT FIXTURE FROM EXISTING LUMINAIRE. REPLACE WITH WSDOT APPROVED 310W EQUIVALENT LED FIXTURE.
- REMOVE EXISTING LIGHT STANDARD, FOUNDATION, LUMINAIRE ASSOCIATED JUNCTION BOXES, AND CONDUIT ELBOWS. REMOVE WIRING AND ABANDON CONDUIT IN PLACE. BACKFILL TO GRADE AS REQUIRED.
- INSTALL NEW SURFACE MOUNTED LED WALL PACK LUMINAIRE WITH INTEGRAL JUNCTION BOX RUN CONDUIT BEHIND ABUTMENT WALLS. REFER TO BRIDGE PLANS FOR ELEVATION VIEW AND CONDUIT BLOCKOUTS THROUGH WALL.
- EXISTING LUMINAIRE TO REMAIN. MAINTAIN EXISTING CIRCUITRY.
- REFER TO TRAFFIC SIGNAL PLANS FOR PROPOSED ELECTRICAL SERVICE INSTALLATION. TERMINATE NEW AND EXISTING CIRCUITS (TO REMAIN) TO NEW SERVICE.
- INSTALL NEW WSDOT APPROVED 310W EQUIVALENT LED FIXTURE ON NEW SIGNAL POLE. REFER TO SIGNAL PLANS.

Utility Franchise UF-SC-2020-003

Dear Mr. Mills,

Enclosed is fully executed Utility Franchise No. UF-SC-2020-003 to operate and maintain a city water system on the above referenced section of state highway.

All work, including maintenance, conducted inside of WSDOT Right of Way requires advance authorization from the South Central Utilities Inspection Engineer and the Area Maintenance Superintendent. The Franchise holder must **email the Maintenance Notifications (Attachment "Exhibit E") to notify the appropriate offices ten (10) working days prior to the Scheduled Start Date of Maintenance.** Include the required Scheduled Maintenance Date and the required Contact Information. This is to ensure compliance with WSDOT policy and assure a State Representative is available to inspect your work if necessary.

The Franchise holder and/or their contractor are responsible for providing work zone traffic control while in State Right of Way and or city/county roads that will be impacted by the work zone. Traffic control plans created by the Franchise holder and/or their contractor must be submitted ten (10) working days prior to the Estimated Start Date of Maintenance for review/approval by the Department Representative (Special Provision 1). All Traffic Control Plans must be WSDOT approved prior to use.

Sincerely,

A handwritten signature in black ink that reads 'Tanya F. Martinez'.

Permit/Franchise Number: _____ Expiration: _____ Charge Code*: _____ Group: _____

Date Received: _____ Reviewed By: _____ Region Address: _____

Application Type	Category, Impact to R/W	Fees*	Access Control

In accepting this Franchise Amendment No. _____ to _____, Utility agrees that the General Provisions to the original Franchise shall be replaced in their entirety with the General Provisions as included with this Amendment. All other terms and conditions of the original franchise shall remain in full force and effect.

* The fees required under [WAC 468-34](#) and [RCW 47.44](#) are paid by the Utility to cover the basic administrative expenses incidental to the processing of this application. The applicant promises to pay any additional costs for all work associated with the review, processing and inspection for the proposed installation. Checks or money orders are to be made payable to "Washington State Department of Transportation".

Exhibits

The above-noted Permit, Franchise or Franchise Amendment is subject to the terms and conditions stated in the General Provisions, as well as all the Exhibits.

This Permit or Franchise is issued pursuant to the terms of [RCW 47.32](#), [RCW 47.44](#), and [WAC 468-34](#), and amendments thereto. Renewal of a Franchise must be by application prior to expiration of this Franchise as required by [RCW 47.44.020\(3\)](#).

1. A copy of this Permit or Franchise must be on the job site, protected from the elements, at all times during any construction authorized by this Permit or Franchise.
2. The Utility agrees to pay the reasonable costs for investigating, handling, and granting the Permit or Franchise, including, but not limited to basic overhead charges and for providing an inspector during construction and/or maintenance of the Utility's facilities. Further, the Utility agrees that it shall be responsible for and pay WSDOT's expended direct and indirect costs associated with applicable provisions of the Permit or Franchise. WSDOT will assign a reimbursable account to the Utility as a means of invoicing the Utility for the costs associated with this Permit or Franchise.
 - (a) WSDOT will assign a reimbursable account to the Utility as a means of invoicing the Utility for the costs associated with this Permit or Franchise.
 - (b) WSDOT will invoice the Utility and the Utility agrees to pay WSDOT within thirty (30) calendar days of receipt of an invoice.
3. Upon approval of this Permit or Franchise, the Utility shall diligently proceed with the Work and comply with all General and Special provisions herein. Construction of facilities proposed under this Permit or Franchise shall begin within one (1) year and must be completed within three (3) years from date of WSDOT approval. "Work" under this Permit or Franchise shall mean construction, operation, and maintenance of the Utility's facilities as authorized herein.
4. The Utility shall notify WSDOT representative in special provision 1 of the name, address, and telephone number of its contractor when Work outlined herein is going to be performed with other than its own forces. When the Utility uses a contractor, an authorized representative of the Utility shall be present at all times unless otherwise agreed to by WSDOT representative. A list of authorized representatives shall be submitted prior to the construction start date. (Authorized representatives are defined as persons having signatory authority for the Utility and or the authority to control the Work as needed for any issues identified by WSDOT.)
5. The Utility agrees to schedule and perform its Work in such a manner as not to delay WSDOT's contractor's work when WSDOT has a contractor performing work in the vicinity of the Utility's Work.
6. All contact between WSDOT and the Utility's contractor shall be through the Utility representative. Where the Utility chooses to perform the Work with its own forces, it may elect to appoint one of its own employees engaged in the Work as its representative. The Utility, at its own expense, shall adequately police and supervise all Work performed by itself, its contractor, subcontractor, agent, and/or others, so as not to endanger or injure any person or property.
7. The Utility shall contact the identified WSDOT representative two (2) weeks prior to conducting Work, to determine the location of survey control monuments within the area in which the Utility will be working. In the event any monument or right of way marker will be altered, damaged, or destroyed by the Utility, WSDOT, prior to Utility Work, will reference or reset the monument or right of way marker. During the Work, upon discovery of a monument or right of way marker, the Utility shall cease Work in that area and immediately notify WSDOT of the discovery. WSDOT will coordinate with the Utility to ensure that the monument or right of way marker is recorded or replaced. The Utility agrees to pay all WSDOT costs to perform monument or right of way marker work, as provided in this provision, in accordance with general provision 2.
8. In the event any milepost, fence, or guardrail is located within the limits of the Utility's Work and will be disturbed during Utility Work, the Utility agrees to carefully remove these highway facilities prior to Utility Work and reset or replace these highway facilities after the Utility Work, to WSDOT's sole satisfaction and at the sole cost of the Utility. The Utility agrees that all highway signs and traffic control devices shall not be removed or disturbed during Utility Work.

9. The Utility agrees that all Work shall be done to the satisfaction of WSDOT. All material and workmanship shall conform to [WSDOT's Standard Specifications for Road, Bridge, and Municipal Construction](#), current edition, and amendments thereto, and shall be subject to WSDOT inspection. All WSDOT acceptance and inspections are solely for the benefit of WSDOT and not for the benefit of the Utility, the Utility's contractor (if any), or any third party. The Utility agrees that it shall pay all WSDOT inspection costs in accordance with general provision 2.
10. The Utility shall comply with the [Manual on Uniform Traffic Control Devices for Streets and Highways \(Federal Highway Administration\)](#) and the State of Washington modifications thereto ([chapter 468-95 WAC](#)) while it performs the Work. If WSDOT requires, the Utility shall submit a signing and traffic control plan to WSDOT's representative for approval prior to construction or maintenance Work. No lane closures shall be allowed except as approved by WSDOT's representative. Approvals may cause revision of Special Provisions of this Permit or Franchise, including hours of operation.
11. This Permit or Franchise may not be amended or modified without WSDOT's prior review and approval. Upon completion of the Work, the Utility shall provide a written notice of completion of the Work to WSDOT's representative within ten (10) calendar days of the completion of the Work so that WSDOT may make its final inspection. Further, the Utility shall provide the Region Utilities Engineer with detailed as-built drawings within ninety (90) calendar days of Work completion, if the originally approved Permit or Franchise construction plans have been revised during the course of construction.
12. If WSDOT, at its sole discretion, shall determine that any or all of the Utility's facilities must be modified, removed from, or relocated within the state-owned highway right of way as necessary, incidental, or convenient for the construction, alteration, improvement, repair, relocation, or maintenance of the state highway, or for the safety of the traveling public, the Utility, its successors and assigns, shall, at its sole cost and expense, upon written notice by WSDOT, modify, relocate, or remove any or all of its facilities within or from the state-owned highway right of way as required by WSDOT. The Utility shall perform in a timely manner all facility modifications, relocations, and/or removals as WSDOT directs, to avoid highway project impacts or delays and in such manner as will cause the least disruption of traffic or interference with WSDOT's continued operation and/or maintenance of the highway.
13. Should the Utility fail or refuse to comply with WSDOT's direction, pursuant to general provision 12, to modify, remove, or relocate any Utility facility, WSDOT may undertake and perform any modification, removal, or relocation of the Utility facility that WSDOT, in its sole discretion, deems necessary. The Utility agrees to pay WSDOT's expended costs and expenses for performing the work, in accordance with general provision 2.
14. If WSDOT determines in good faith that emergency maintenance work on the Utility's facility is needed to (a) protect any aspect of the state highway right of way, or (b) secure the safety of the traveling public due to a failure of the Utility's facility, WSDOT may perform the necessary work without the Utility's prior approval, and the Utility agrees to pay WSDOT's expended costs and expenses for performing the work in accordance with general provision 2. WSDOT will notify the Utility of the emergency work performed as soon as practicable.
15. WSDOT may amend, revoke, or cancel this Permit or Franchise at any time by giving written notice to the Utility. If the Permit or Franchise is amended, the Utility will have thirty (30) calendar days to modify the facility as the Permit or Franchise amendment(s) require. If the facility modifications cannot be made within thirty (30) calendar days, the Utility shall respond to WSDOT, in writing, as to when the facility modifications can be made. If the Permit or Franchise is revoked or canceled, the Utility shall immediately remove all facilities from the right of way. Any facilities remaining upon the right of way thirty (30) calendar days after written notice of Permit or Franchise revocation or cancellation may be removed by WSDOT at the expense of the Utility. The Utility agrees to pay WSDOT's expended costs and expenses for performing the work in accordance with general provision 2.
16. Should the Utility breach any of the conditions and requirements of this Permit or Franchise, or should the Utility fail to proceed with due diligence and in good faith with the Work as authorized by this Permit or Franchise, WSDOT may cancel or revoke the Permit or Franchise upon thirty (30) calendar days written notice to the Utility.
17. The Utility shall not excavate or place any obstacle within the state-owned highway right of way in such a manner as to interfere with WSDOT's construction, operation, and maintenance of the state-owned highway right of way or the public's travel thereon without first receiving WSDOT's written authorization.
18. The Utility agrees to maintain, at its sole expense, its facilities authorized by this Permit or Franchise in a condition satisfactory to WSDOT.
19. The Utility agrees that it is financially responsible to WSDOT for all necessary expenses incurred in inspecting the construction and restoring the highway pavement or related transportation equipment or facilities to a permanent condition suitable for travel as determined by WSDOT, as well as financially responsible to WSDOT for trenching

work not completed and for compensating WSDOT for the loss of useful pavement life caused by trenching as required by [RCW 47.44.020](#).

20. Upon completion of all Work, the Utility shall immediately remove all rubbish and debris from the state- owned highway right of way, leaving the state-owned highway right of way in a neat, presentable, and safe condition to WSDOT's satisfaction. Any Workrelated rubbish and debris clean up, or any necessary slope treatment to restore and/or protect the state-owned right of way, not done within one (1) week of Work completion, unless otherwise negotiated, will be done by WSDOT at the expense of the Utility. The Utility agrees to pay WSDOT's expended costs and expenses for performing the work in accordance with general provision 2.
21. For the benefit and safety of the traveling public, the Utility voluntarily agrees to permit WSDOT to attach and maintain upon any Utility facility under this Permit or Franchise any required traffic control devices, such as traffic signals, luminaires, and overhead suspended signs, when the use of such devices or attachments does not interfere with the use for which the facility was constructed. WSDOT shall bear the cost of attachment and maintenance of such traffic control devices, including the expended cost of any extra Utility infrastructure construction beyond what is necessary for the Utility's facility; such extra cost to be jointly determined by WSDOT and the Utility. WSDOT shall not share in the Utility facilities' cost of installation, operation, or maintenance of any of the facilities installed under this Permit or Franchise
22. The Utility shall comply with [WSDOT's Temporary Erosion and Sediment Control Manual \(M 3103.01\)](#) and any revisions thereto, for erosion control and/or to mitigate any erosion occurring as a result of the Work. If the Utility Work performed under this Permit alters, modifies, changes, or interferes in any way with the drainage of the state-owned highway right of way, the Utility shall, at its own expense, make all corrections and/or provisions WSDOT requires to fix and restore the state-owned right of way drainage to its original condition and function prior to the Utility's Work. Any flows from the Utility shall not exceed the flows discharging to WSDOT drainage prior to the new work. Any flows discharged to state- owned highway right of way shall meet the requirements for quantity and water quality according to the current version [Highway Runoff Manual \(M 31-16\)](#). Should the Utility not make the required drainage restoration, WSDOT reserves the right to make such changes as necessary to restore the original drainage function at the sole cost of the Utility, and the Utility agrees to pay WSDOT's expended costs and expenses for performing the work in accordance with Stormwater Discharge General Provision 2.
23. The Utility shall be responsible for securing all necessary permits, including but not limited to, federal, state, and local regulatory, tribal, environmental, archeological, and railroad permits and permits from the Washington State Department of Ecology, the Washington State Department of Fish and Wildlife, and/ or the U.S. Army Corps of Engineers prior to beginning the Work authorized by this Permit or Franchise. The Utility shall be responsible for mitigation measures where wetlands have been disturbed and agrees that it is responsible for any fines imposed for noncompliance with the permit(s) conditions or for failure to obtain the required permits. In addition, the Utility, on behalf of itself and its contractors, officers, officials, employees, and agents, agrees to indemnify, hold harmless, and defend, at its sole cost and expense, WSDOT and its officers, officials, employees, and agents from any and all fines, costs, claims, judgments, and/or awards of damages (to regulatory agencies, persons, and/or property), arising out of, or in any way resulting from, the Utility's failure to (1) obtain any required permit for the Utility Work or (2) comply with permit conditions. Further, the Utility shall be responsible for compliance with all federal, state, and local laws, regulations.
24. For any of the Utility's Work that requires permit coverage under the "CONSTRUCTION STORMWATER GENERAL PERMIT – National Pollutant Discharge Elimination System and State Waste Discharge General Permit for Stormwater Discharges Associated with Construction Activity" (Construction Stormwater General Permit), the Utility shall obtain said permit coverage and shall comply with all requirements of the Construction Stormwater General Permit. Upon WSDOT's request, the Utility shall provide a copy of the Construction Stormwater General Permit. In addition, the Utility, on behalf of itself and its contractors, officers, officials, employees, and agents, agrees to indemnify, hold harmless, and defend, at its sole cost and expense, WSDOT and its officers, officials, employees, and agents from any and all fines, costs, claims, judgments, and/or awards of damages (to regulatory agencies, persons, and/or property), arising out of, or in any way resulting from, the Utility's failure to (1) obtain coverage under the Construction Stormwater General Permit for Utility Work or (2) comply with the Construction Stormwater General Permit requirements.

25. This Permit or Franchise does not authorize the Utility, or its employees, contractors, or agents, any right to cut, spray, retard, remove, destroy, disfigure, or in any way modify the physical condition of any vegetative material located on the state-owned highway right of way. Should the Utility anticipate that its Work will alter the appearance of the state-owned highway right of way vegetation, the Utility shall notify WSDOT representative listed in special provision 1 to obtain WSDOT's prior written approval of the Utility's proposed work. If WSDOT permits the Utility to modify the state-owned highway right of way vegetation, it agrees that any vegetation cutting and/or trimming activities shall be conducted in such a manner that the state-owned highway right of way vegetation appearance will not be damaged. Should the Utility damage the appearance of the state-owned highway right of way vegetation without WSDOT's prior written approval, the Utility is subject to penalties provided for in RCWs [47.40.070](#), [47.40.080](#), and [4.24.630](#), as applicable.
26. The Utility hereby certifies that its facilities described in this Permit or Franchise are (1) in compliance with the Control Zone Guidelines, or (2) for a franchise consolidation or renewal, a mitigation plan has been submitted and approved for any existing Location I or Location II utility objects to be corrected in accordance with the Control Zone Guidelines, pursuant to Chapter 9 of WSDOT's [Utilities Manual \(M 22-87\)](#) and any revisions thereto.
27. The Utility shall not assign or transfer this Permit or Franchise without WSDOT's prior written approval. The Utility understands that any assignment or transfer requires the assignee or transferee to have the means to assume all obligations, duties, and liabilities of the terms and conditions of this Permit or Franchise, and the Utility will advise the assignee or transferee of its obligation to apply for an updated or replacement Permit or Franchise. If WSDOT does not approve the assignment or transfer, this Permit or Franchise shall automatically terminate, and the facility occupying state-owned highway right of way shall be subject to the terms of RCW [47.44.060](#).
28. The Utility, its successors and assigns, shall indemnify, defend at its sole cost and expense, and hold harmless the State of Washington, its officers and employees, from all claims, demands, damages (both to persons and/or property), expenses, regulatory fines, and/or suits that (1) arise out of or are incident to any acts or omissions of the Utility, its agents, contractors, and/or employees, in the use of the state-owned highway right of way as authorized by the terms and conditions of this Permit or Franchise, or (2) are caused by the breach of any of the terms or conditions of this Permit or Franchise by the Utility, its successors and assigns, and its contractors, agents, and/or employees. The Utility, its successors and assigns, shall not be required to indemnify, defend, or hold harmless the State of Washington, its officers and/or employees, if the claim, suit, or action for damages (both to persons and/or property) is caused by the acts or omissions of the State of Washington, its officers and/or employees; provided that, if such claims, suits, or actions result from the concurrent negligence of (a) the State of Washington, its officers and/or employees, and (b) the Utility, its agents, contractors, and/or employees, or involves those actions covered by RCW [4.24.115](#), the indemnity provisions provided herein shall be valid and enforceable only to the extent of the acts or omissions of the Utility, its agents, contractors, and/or employees.
29. The Utility agrees that its obligations under this Permit or Franchise extend to any claim, demand, and/or cause of action brought by, or on behalf of, any of its employees or agents while performing Work under this Permit or Franchise while located on state-owned highway right of way. For this purpose, the Utility, by MUTUAL NEGOTIATION, hereby waives, with respect to the State of Washington only, any immunity that would otherwise be available to it against such claims under the Industrial Insurance provisions in [chapter 51.12 RCW](#).
30. The indemnification and waiver provided for in general provisions 28 and 29 shall survive the termination of this Permit or Franchise.
31. Any action for damages against the State of Washington, its agents, contractors, and/or employees, arising out of damages to a utility or other facility located on state-owned highway right of way, shall be subject to the provisions and limitations of [RCW 47.44.150](#).
32. This Permit or Franchise shall not be deemed or held to be an exclusive one and shall not prohibit WSDOT from granting rights of like or other nature to other public or private utilities, nor shall it prevent WSDOT from using any of the state-owned highway right of way or other properties for transportation purposes, or affect WSDOT's right to full supervision and control over all or any part of the state-owned highway right of way or properties, none of which is hereby surrendered. Further, WSDOT reserves the exclusive right to require that all utility facilities be subject to joint trenching and occupancy.

Special Provisions for Permits and Franchises

Applicable provisions are denoted by (X)

- 1. No Work provided for herein shall be performed until the Utility is authorized by the Washington State Department of Transportation (WSDOT) Representative(s):

Department Representative:

Jason Harris
SCR Region Utilities Inspector
2809 Rudkin Road
Union Gap, WA 98903-1648

Phone: (509) 577-1748
Fax: (509) 577-1686
Cell: (509) 654-8385

Maintenance Area Representative:

Kara Shute
Area 3 Maintenance Superintendent
1816 North 4th Ave.
Pasco, WA 99301

Phone: (509) 577-1933 Ext.5
Fax: (509) 545-2412
Cell: (509) 948-0178

The Utility shall notify in writing the identified WSDOT representative(s) at least **ten (10)** working days (Monday through Friday excluding any holidays) in advance of commencing Work on state-owned highway right of way.

- 2. Prior to beginning the Work, a pre-construction conference shall be held at which WSDOT, Utility's engineer, contractor, and inspector (as applicable) shall be present. The Utility shall give a minimum 5 working days (Monday through Friday excluding any holidays) notice to WSDOT's representative(s) (prior to the pre-construction conference).
- 3. Work within the state-owned right of way shall be restricted to **daylight hours**. No work shall be allowed on Saturday, Sunday, or holidays, without prior approval by WSDOT. In addition, the Utility shall be off the highway by noon the day prior to a holiday unless authorized by the WSDOT. If a holiday falls on a Saturday, the preceding Friday is counted as the holiday, and the Utility shall be off the highway by noon Thursday. When the Holiday falls on a Monday, the Utility shall be off the right of way at noon on the preceding Friday. Nothing in this section shall limit the authority of the WSDOT to further restrict work within state-owned highway right of way at WSDOT's discretion. The hours of closure are subject to change if required by WSDOT.
- 4. During non-working hours equipment and materials shall not be located or stored within the work zone clear zone (WZCZ) area. Minimum WZCZ distances will be measured from the edge of the traveled way (the portion of the roadway intended for the movement of vehicles, exclusive of shoulders and lanes for parking, turning, and storage for turning) and will be determined as follows:

Minimum Work Zone Clear Zone Distance

Posted Speed	Distance From Traveled Way (ft)
35 mph or less	10
40 mph	15
45 to 50 mph	20
55 to 60 mph	30
65 mph or greater	35

- 5. In the event that during the course of this project an inadvertent discovery of historical/archeological objects, human remains, or a bone/bones of uncertain origin is made, the Utility shall immediately cease operations and contact the WSDOT Representative in section 1 and the Department Archaeologist:

Name: Dean Weaver
Phone: 509-324-6137
E-mail: weaverd@wsdot.wa.gov

Determination of necessary follow-up actions or the ability to continue work shall be at the sole discretion of WSDOT.

- 6. The Utility agrees that, in the event any construction and/or maintenance of the highway facility becomes necessary within the proximity of the utility installation, it is expressly understood that, upon request from WSDOT's representative, the Utility will promptly identify and locate by suitable field markings any and all of its underground facilities so that WSDOT or its contractor can be fully apprised at all times of their precise locations.
- 7. Construction of this facility will not be permitted from the shoulders or through the traffic lanes and/or ramps of SR . All construction access will be from .
- 8. All vehicles and equipment that are not essential for the Work shall not be parked on the shoulders or thru-traffic lanes and/or ramps of SR .

- 9. No additional side (service) connections will be allowed within State right of way after the construction of the facility authorized by this Permit or Franchise.
- 10. The responsibility of the Utility for proper performance, safe conduct, and adequate policing and supervision of the Work shall not be lessened or otherwise affected by WSDOT's approval of plans, specifications, or work, or by the Department representative's presence at the work site.
- 11. The Utility acknowledges that SR 395 is scheduled for future construction. All work shall be coordinated with the Project Engineer's Office responsible for this project. Relocation and/or adjustment of this facility at the time of construction will be at the expense of the Utility.
- 12. The Utility shall notify WSDOT's representative upon completion of project for final inspection / review.

BOND AND INSURANCE COVERAGE

- 13. The Utility has provided bond coverage for the Work under this Permit or Franchise by furnishing a blanket surety bond held by WSDOT at the WSDOT Headquarters Utilities Unit in Olympia, WA.
- 14. The Utility or its contractor shall provide a surety bond to WSDOT in the amount of \$ _____, written by a surety company authorized to do business in the State of Washington, or shall set up a WSDOT approved escrow account prior to the start of construction to cover the Work under this Permit or Franchise. The surety bond or escrow account shall remain in force for a period of one (1) year after the written notice of completion of the Work (as provided in general provision 11), except that when the Work impacts the paved highway (open cuts, bores or damage to the highway surface), the Utility shall be required to maintain the surety bond or escrow account for a period of two (2) years after the notice of completion.
- 15. When the Utility chooses to perform the Work with other than its own forces and requires its contractor to provide a surety bond to WSDOT before performing any Work to ensure compliance with all of the terms and conditions of this Permit or Franchise, the bond shall be in the amount of \$ _____, written by a surety company authorized to do business in the State of Washington and shall remain in force until all Work under this Permit or Franchise has been completed, and the Utility's contractor has restored any affected WSDOT property and right of way to the satisfaction of the Department.
- 16. The Utility shall provide proof of insurance coverage prior to performing any Work within state-owned highway right of way, as follows:
 - (a) Commercial General Liability covering the risks of bodily injury (including death), property damage, and personal injury, including coverage for contractual liability, with a limit of not less than \$3 million per occurrence and in the aggregate;
 - (b) Business Automobile Liability (owned, hired, or non-owned) covering the risks of bodily injury (including death) and property damage, including coverage for contractual liability, with a limit of not less than \$2 million per accident;
 - (c) Employers Liability covering the risks of Utility's employees' bodily injury by accident or disease, with limits of not less than \$1 million per accident for bodily injury by accident and \$1 million per employee for bodily injury by disease.

Such insurance policies or related certificates of insurance shall name the Washington State Department of Transportation as an additional insured on all general liability, automobile liability, employers' liability, and excess policies. A forty-five (45) calendar day written notice shall be given to WSDOT prior to termination of or any material change to the policy(ies) as such relate(s) to this Permit or Franchise.

- 17. If the Utility is a city or county, it has provided verification of insurance coverage to WSDOT by providing proof of its coverage through a Risk Pool or verification that the city or county is self-insured, to comply with the insurance terms and conditions of this Permit or Franchise.

UNDERGROUND FACILITIES

- 18. All facilities in joint use conduits shall relocate together at such time as the conduit owner moves their conduit or WSDOT deems relocation necessary. The conduit owner is responsible to remove the conduit or conduits in their entirety. (The conduit owner is the Permit or Franchise holder under which the conduits were installed.)
- 19. A Utility that is installing conduit for future use must apply for a new Permit or Franchise amendment when they are ready to occupy the empty conduit. If a third-party Utility is to occupy the empty conduit the conduit owner must instruct them to apply for a Permit or Franchise with WSDOT before occupying the conduit.
- 20. The Utility shall completely remove all Deactivated Facilities (as defined in Washington State Department of Transportation Utilities Manual M 22-87).
- 21. Deactivated facilities left within the state owned right of way shall remain owned by the Utility, who shall continue to bear all responsibility for any future costs incurred for removal of the Deactivated facilities if required by WSDOT in its sole discretion.
- 22. For underground facilities, markers shall be placed at both ends of a crossing, and at all changes in offset distance from right of way line or centerline of the highway and placed approximately every 500 feet for longitudinal installations. Marker information as a minimum shall include owner name, pipeline or cable identification and station, and telephone number or other means to contact a local office. Markers must be in compliance with WSDOT's *Standard Specifications for Road, Bridge, and Municipal Construction Manual* M 41-10, Division 9 (9-17 Flexible Guideposts), not create a safety hazard, and all markers shall be placed and maintained so

as to minimize interference with WSDOT maintenance operations. It is the Utility's responsibility to maintain its markers. Maintenance of markers includes but is not limited to update of Utility's name (if changed) or Utility's successors' or assigns' contact information, and replacement of damaged or missing markers.

- 23. All underground facilities shall include a component by which the utility can be located with conventional methods, provided that for all installations in trenches, the Utility shall install detector tape approximately 12 inches above the underground facility. The tape shall conform to the standards of the American Public Works Association Uniform Color Code.
- 24. Utility facilities or casings for facilities crossing under highways surfaced with oil, asphalt concrete pavement, or cement concrete pavement shall be by trenchless construction, using the appropriate equipment to jack, bore, or auger the facility through the highway prism with a minimum depth of 5 feet along any point from the top of facility to the lowest point of the finished highway grade, at a minimum of 3.5 feet depth from bottom of ditch/toe of slope to top of facility or casing.
- 25. If PVC or HDPE casings are utilized for crossings, they shall be greater than Schedule 80 or equivalent or as approved by WSDOT.
- 26. Casing requirements (WAC 468-34-210) for utilities are specified individually or in whole on the attached exhibits. Any variances to these casing requirements shall be justified, in writing, and approved by WSDOT, in writing, prior to installation.
- 27. Pipeline installation shall meet the provisions of chapter 480-93 WAC, Gas Companies-Safety, and amendments thereto.
- 28. Open trenching (cutting a trench for direct placement of a utility that does not include cutting an existing paved highway surface) will only be allowed at the locations identified on the plan sheets and/or listed on Exhibit(s) _____, with restoration to be performed as noted on the attached "Open Trench Detail," Exhibit _____.
- 29. Open cuts (cutting a trench for direct placement of a utility that does include cutting the existing paved highway surface) of the highway are a variance to WSDOT policy, requiring justification (Open Cut Variance Request) and approval by WSDOT prior to the Work beginning. Open cuts are only allowed at approved locations identified on the plan sheets and/or listed on Exhibit(s) _____, with restoration to be performed as noted on the attached "Open Cut Detail," Exhibit _____.
- 30. If determined necessary by WSDOT representative, any or all of the excavated material shall be removed and replaced with suitable material as specified by WSDOT. It is the Utility's responsibility to obtain any necessary permits or comply with applicable requirements to haul or dispose of any excavated material.
- 31. If determined by the Washington State Department of Labor and Industries and/or WSDOT representative that extra Shoring (beyond that specified in Section 7-08.3(1)B of WSDOT's Standard Specifications for Road, Bridge, and Municipal Construction) is necessary for the safety of the workers or the protection of the highway pavement, the trenching or excavation work shall be stopped and no Work in the trench or excavation area will be allowed until satisfactory modifications are made.
- 32. All trenches, boring or jacking pits, etc., shall be backfilled as soon as possible. If left open during nonworking hours, they shall be protected to the satisfaction of WSDOT. Methods of protection shall be submitted a minimum of _____ () calendar days in advance for approval by WSDOT prior to use.
- 33. During working hours, all open trenches shall be marked by warning signs, barricades, and flashing beacons. If necessary, flagmen shall be employed for the purpose of protecting the traveling public.
- 34. The highway shoulders, where disturbed, shall be resurfaced in kind with crushed surfacing top course at _____-inch minimum compacted depth, or as directed by the Department's representative. The surface of the finished shoulder shall slope down from the edge of pavement at the rate of 5% unless otherwise directed. Any restored shoulders shall not have any sections less than 2 feet wide.
- 35. The Utility shall use hot mix asphalt for all roadway pavement restoration. WSDOT will not allow the use of cold mix for any roadway patching longer than 24 hours.
- 36. Utility Facilities installed longitudinally within Zone A shall have a minimum cover of 60 inches. In areas where there is consolidated rock, if the required depth cannot be met, a variance must be approved.
- 37. Utility facilities installed longitudinally within Zone B, outside of Zone A, shall have a minimum cover of 42 inches except in consolidated rock where it is necessary to saw or blast the rock to install the facility, the minimum cover may be 24 inches.
- 38. All facilities constructed in Zone A shall use conduit.
- 39. Zone A requirements also apply from Milepost _____ to Milepost _____.

AERIAL/ABOVEGROUND FACILITIES

- 40. All facilities on joint use poles shall be relocated at the time the pole owner either moves or removes their poles. (The pole owner is the Permit or Franchise holder under which the poles were installed and is responsible for ensuring the removal of the pole.)
- 41. Neutral conductors associated with circuits of 0 to 22 Kilovolts, where the neutral is considered to be 0-750 Volts, shall have a minimum clearance of 24 feet Vertical Clearance as indicated in WAC 468-34-290, or 20 feet provided the facility is grounded at each pole at each end of the crossing.
- 42. The Utility agrees to underground the aboveground facilities covered by this Franchise in Scenic Classes "A," and "B," as defined on the attached Exhibit(s) _____, either at the time of major construction of the facility, for that portion of facility to be reconstructed, or prior to expiration of this Franchise.

- 43. The Utility agrees to underground the aboveground facilities covered by this Franchise in Scenic Classes "A," "AX," "B," and/or "BX," as defined on the attached Exhibit(s) _____, at the time the pole owner undergrounds its facility. The existing aboveground facility may remain or be relocated as aboveground in Scenic Classes "AX" or "BX", if acceptable to WSDOT.
- 44. The Utility agrees to underground or relocate the existing aboveground facilities covered by this Franchise in Scenic Classes "A," "AX," "B," and/or "BX," as defined on the attached Exhibit(s) _____, to a location acceptable to WSDOT either at the time of reconstruction, for the portion of line to be reconstructed, or prior to the expiration of this Franchise. The existing aboveground facility may remain or be relocated as aboveground in Scenic Classes "AX" or "BX", if acceptable to WSDOT.
- 45. The Utility shall not place any new poles within the right-of-way.
- 46. Use of guard posts for proposed fire hydrant installations shall not be permitted within the right-of-way.

MAINTENANCE

- 47. No routine maintenance of the facility authorized by this Permit or Franchise will be allowed within the limited access area.
- 48. Maintenance access of this facility will not be permitted from the shoulders, thru-traffic lanes, and/or ramps of _____, and all service to this facility will be accessed from _____.
- 49. The Utility will notify WSDOT representative(s), listed in Special Provision 1, **ten (10)** working days (Monday through Friday excluding any holidays) prior to any scheduled maintenance work to be performed in the state-owned highway right of way.

ADDITIONAL PROVISIONS

- 50. The Utility shall maintain two way traffic at all times.
- 51. The Utility shall utilize the approved Traffic Control Plan provided.
- 52. When requested, the Utility will provide to the Region Utilities Engineer copies of any federal, state and local permits referenced in Section 23 of the General Provisions.
- 53. The Utility shall submit a blasting plan for approval to the office of the Regional Utilities Engineer prior to any blasting within the right-of-way.
- 54. Should the Utility choose to perform the maintenance Work with other than its own forces, the Utility shall notify the Department's representative, by email, as to the name, address, and telephone number of the contractor by filling out the Contractor information on the Maintenance Notification Form, exhibit E.
- 55. **CALL BEFORE YOU DIG:** Utility Notification Center, **811** or 1-800-424-5555. It is the Utility's responsibility to contact the one call center pursuant to RCW 19.122. Any locations or dimensions provided for existing facilities on plan sheets provided by the WSDOT are in accordance with available information obtained without uncovering, measuring, or other verification.
- 56. The Utility is responsible to ensure that re-vegetation is established to pre-construction conditions. Clean up and application of two-stage hydroseeding shall occur as soon as practical following the installation.
 - a. The hydroseed application requires 35lb. per acre of Pure Live Seed (PLS) of a site specific seed mix specified by the State and 2700lb. of Long Term Mulch. The two-stage seeding shall begin with 250lb. of mulch mixed with the seed applied directly to the ground, with the remaining 2450lb. of mulch applied on top. Fertilizer shall be applied at a rate of no more than 10lbs. nitrogen per acre.
 - b. The contractor shall provide evidence (the tag from the seed bag or a copy of the invoice from the vendor with the details of the seed mix listed) that the seed mix meets the Department specifications. In addition, a sample of the seed mix (no less than 1 oz.) must be provided to the inspector. See Exhibit(s) "E" for site specific requirements.
- 57. The Utility shall be responsible for securing the required Department of Natural Resources (DNR) easement(s) and shall provide a copy of the easement(s) to the WSDOT Regional Utilities Engineer prior to installing any utility facilities across DNR land or waterways.
- 58. Only equipment with rubber tires or street pads will be allowed on the roadway. Tracked vehicles with cleats or other devices that may damage the road surfacing will not be allowed.
- 59. Vacuum excavation for utility location shall not exceed 8" in diameter. Material removed below the asphalt shall be replaced with control density fill. The pavement shall be restored to match the existing depth with Hot Mix Asphalt in compacted lifts not to exceed 0.30'. The pavement shall be sealed to bond the patch to existing asphalt and prevent water infiltration.
- 60. WSDOT is in the process of studying how fiber optic lines should be accommodated within WSDOT-owned right of way under state law and, specifically, what form of agreement should be utilized. In order to not cause undue delay in fiber optic line installations, WSDOT has determined to issue this Franchise or Permit for fiber optic facilities pending the outcome of the study and the implementation of a new policy, if any; provided, that the Utility expressly acknowledges and agrees that this Franchise or Permit is issued subject to the amendment, revocation, and cancellation provision under General Provision 15 upon a determination by WSDOT that the use does not qualify for a franchise or permit under state law. In the event of such a revocation or cancellation, all facilities installed hereunder will become subject to the terms and conditions of the new policy or practices, including, but not limited to, the execution of a new form of agreement, and payment of fair market rent, if so required. The Utility expressly acknowledges and agrees that the issuance of this Franchise or Permit creates no right or expectation regarding the terms and conditions under which the facilities may occupy WSDOT-owned right of way in the future.

16 (April 2, 2007)

17 Locations and dimensions shown in the Plans for existing facilities are in accordance with
18 available information obtained without uncovering, measuring, or other verification.
19

20 Public and private utilities, or their Contractors, will furnish all work necessary to adjust,
21 relocate, replace, or construct their facilities unless otherwise provided for in the Plans or
22 these Special Provisions. Such adjustment, relocation, replacement, or construction will
23 be done during the prosecution of the work for this project. It is anticipated that utility
24 adjustment, relocation, replacement or construction within the project limits will be
25 completed as follows:
26

27 ***

28 Benton PUD

- 29 • Buried power will be relocated by the utility company from M 1023+70 to M
30 1035+00. Work will occur during construction before and after Bofer Canyon
31 Road is constructed.
- 32 • Buried power will be relocated by the utility company from RX 51+31 to RX
33 58+50, RT.
- 34 • Buried power will be installed along the west side of Christensen Road and
35 will cross US 395 at M 1021+50 in shared casing with City of Kennewick
36 water. New power conduits will be installed along Ridgeline Drive from the
37 intersection of RX and CX and will run east through the new RX and ZX
38 roundabout. New conduits will be installed along the west side of the new,
39 realigned Bofer Canyon Road, through the RX roundabout, and along the
40 east side of the future Zintel Way corridor.
- 41 • Buried power from HX 65+00 to HX 66+25, RT to be retained and protected.

42
43 Bonneville Power

- 44 • Overhead transmission line crossing at M 1020+70 to be retained and
45 protected.

46
47 Cascade Natural Gas

- 48 • Existing gas line from HX 70+30 to HX 72+40, LT to be retained and
49 protected.
- 50 • 6" PVC gas main for future use will be installed from Plaza Way to the
51 Ridgeline Drive roundabout and from the start of Bofer Canyon Road

improvements, through the roundabout and along the future Zintel Way corridor.

- Cascade Natural Gas will need 30 days lead time from Contractor to order materials before starting work.

Charter/Spectrum

- Conduits within Ridgeline Drive that will be affected by grade change are empty and can be abandoned. Maintain conduit/lines that feed Plaza Way west of roundabout.
- Buried television from HX 65+00 to HX 66+25, RT and HX 67+85 to HX 72+40, LT to be retained and protected.

City of Kennewick

- Existing 18" concrete irrigation pipe for conveyance of K.I.D. Canal at M 1020+30 to be plugged and covered over.
- Existing 16" water in 30" steel casing from RX 51+31 to 66+70 shall be reconstructed by the contractor as part of the project.
- Existing 12" water from RX 51+31 to RX 55+60 and RX 67+15 shall be reconstructed/extended by the contractor as part of the project.
- 18" concrete culvert crossing of US 395 at M 1049+90 will be abandoned in place.
- 36" storm sewer crossing at M 1062+70 to be retained and protected.
- Sanitary sewer system from RX 51+31 to RX 55+65 will be impacted by the overcrossing. The line east of CX shall be removed by the contractor as part of the project. Existing manhole lids shall be adjusted to grade.
- Storm sewer at RX 52+70 will require minor grade adjustments to be made by the contractor as part of the project.
- Storm sewer at RX 54+70 shall be removed by the contractor as part of the project.
- 24" culvert at RX 56+05 shall be removed by the contractor as part of the project.
- Storm sewer at RX 56+50 shall be removed by the contractor as part of the project.
- Culvert at RX 59+00 shall be removed by the contractor as part of the project.
- Culvert at intersection of Ridgeline and Bofer Canyon Road shall be removed by the contractor as part of the project.
- Dry sewer line at Zintel Way and Ridgeline shall be constructed by the contractor as part of the project.
- Existing culverts (2) at HX 66+35 shall be removed and replaced by the contractor as part of the project.
- Existing culvert at HX 67+65 shall be removed and replaced by the contractor as part of the project.
- Storm sewer at HX 67+85 shall be removed and replaced by the contractor as part of the project.
- Waterline from HX 69+65 to HX 72+40 shall be retained and protected.

Williams Northwest Pipeline

- 6" high pressure natural gas line at M 1010+35 to be retained and protected.
- 6" high pressure natural gas line in 10" conduit at 1019+55 to be retained and protected.

1 (*****)
2 This Work consists of constructing a temporary 12" Ridgeline Drive Water Bypass to
3 provide continuous Zone 5 water service while connecting the new 16" water main to the
4 existing 16" Zone 5 water. Work consists of preparing an approved bypass plan, installing
5 and removing the temporary bypass, complete, including conducting wet-taps, installation
6 and disinfection of the temporary bypass line, isolation of the Zone 5 water main, and
7 connection.
8

9 **Jack and Bore for 16 Inch Diam. Pipe**

10
11 (*****)
12 This Work consists of furnishing and installing (using jack and bore techniques) a steel
13 casing to receive a 16" ductile iron water main carrier pipe and electrical conduits using
14 cluster carrier skids. Minimum carrier pipe size shall be 36". The pipe size shall allow for
15 the specified carrier pipe size and type, with pipe skids.
16

17 **Casing for 12 Inch Diam. Pipe**

18
19 (*****)
20 This Work consists of furnishing and installing a steel casing to receive a 12" ductile iron
21 water main carrier pipe. Contractor shall select the pipe size necessary for the casing to
22 receive the designated carrier pipe. The pipe size shall allow for the specified carrier pipe
23 size and type, with pipe skids.
24

25 7-09.2.GR7

26 **Materials**

27
28 Section 7-09.2 is supplemented with the following:
29

30 **Ridgeline Drive Water Bypass**

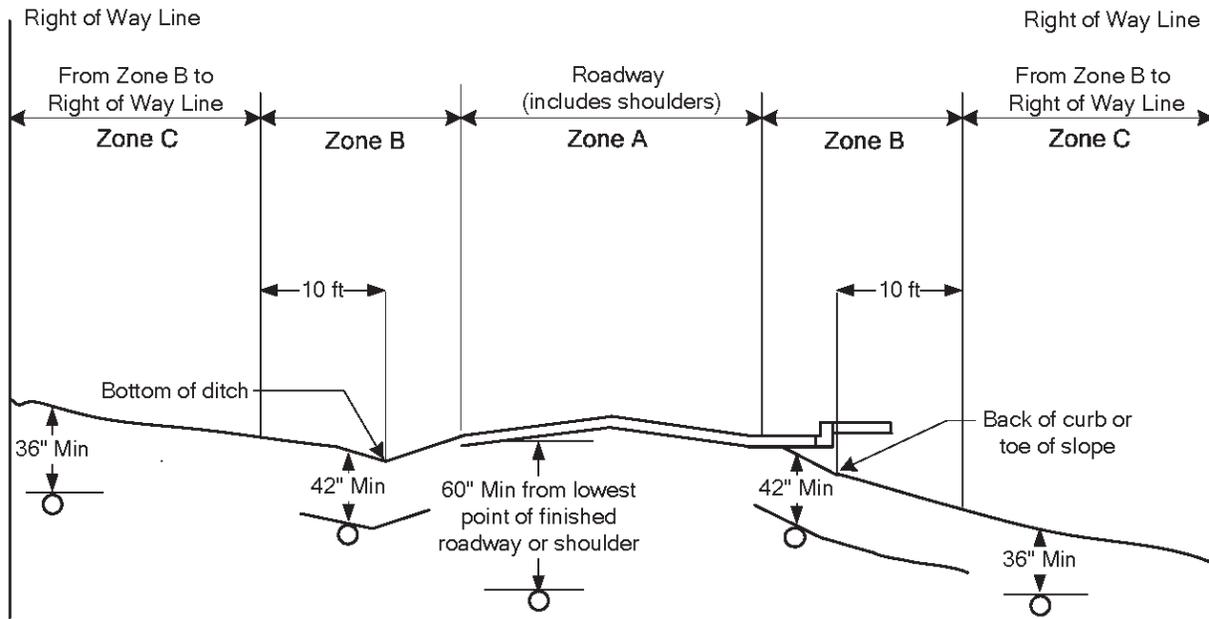

31
32 (*****)
33 Materials shall conform to the requirements of Section 7-09.2. Temporary 12" water shall
34 be Polyethylene (PE) Pipe with heat fusion joining in conforming to the requirements of
35 ASTM F2620-19 *Standard Practice for Heat Fusion Joining of Polyethylene Pipe and*
36 *Fittings*.
37

38 **Jack and Bore for 16 Inch Diam. Pipe**

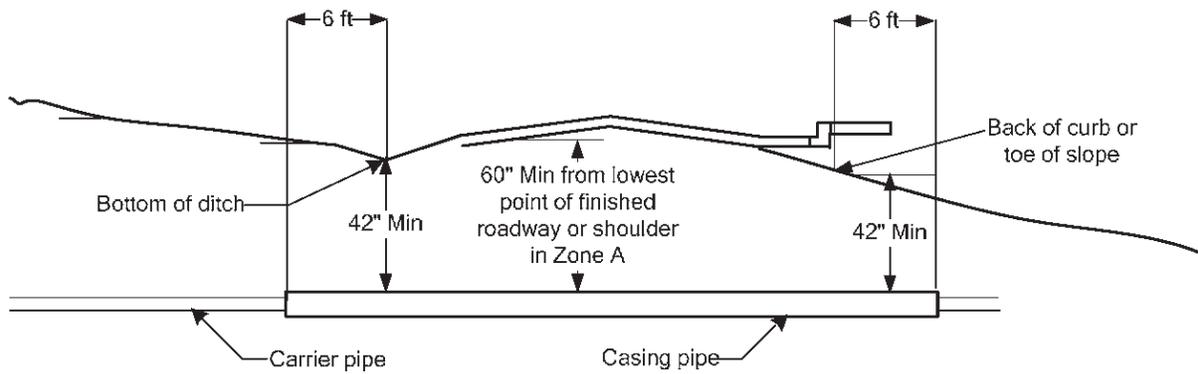

39
40 (*****)
41 Steel pipe shall meet the requirements of ASTM A139, Grade B with minimum 35,000 psi
42 yield strength and thickness necessary to withstand jacking pressure. Steel pipe shall be
43 clean and coated on the outside with two coats of coal tar paint. Kopper "Bitumastic Super
44 Service Black"; Mobile "High-Build Bituminous Coating 35-J-10"; Tnemec "46-449 Heavy
45 Duty Black"; or equivalent shall be used.
46

47 Carrier pipe skids shall be made of plastic spacers, manufactured from Calpico Inc.,
48 Cascade Waterworks MFG Co., Advance Products and Systems, or equal as approved
49 by the Engineer.
50

51 The annular space shall be filled with low strength foaming concrete grout with a
52 compressive strength of 140 psi and a foam volume of 20.3 ft³/yd³, or other material as

Longitudinal Coverage Detail

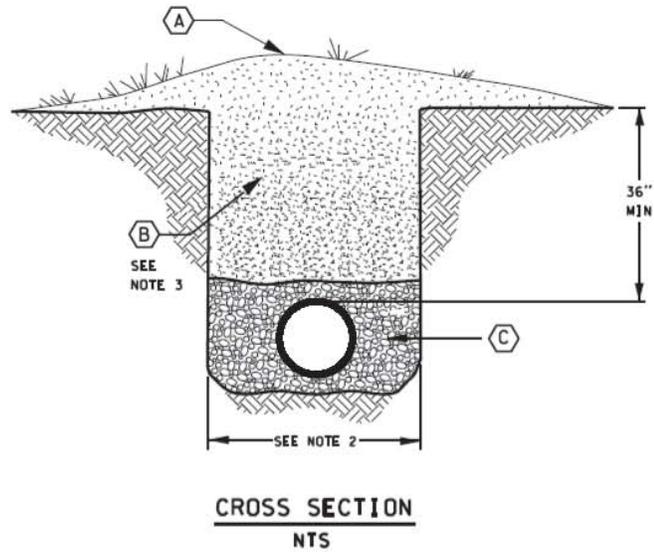

Note:
Casing pipes shall extend a minimum of 6 feet beyond the toe of fill slopes, or bottom of ditch line, or outside curb.

Crossing Coverage Detail

Minimum Cover for Pipe Installation

LEGEND

- (A) Surface treatment to restore existing to match adjacent (seeding, bark, etc.).
- (B) Native material or as directed by WSDOT.
- (C) Bedding material. Bedding material depth over and beneath pipe casing shall be half the diameter of pipe casing or 6 inches, whichever is less.

GENERAL NOTES

1. Trenching and pipe installation shall meet the requirements of WSDOT Standard Specification 7-08.
2. Maximum trench width shall be outside casing pipe width plus 1 foot either side of casing pipe.
3. Compaction shall be method _____ per Standard Specification Section 2-03.3 (14) C.
4. When connecting to an existing facility under the pavement, pavement restoration may, at the department's discretion, include the full lane width and encroached shoulder.
5. Casing pipes shall extend a minimum of six (6) feet beyond the toe of fill slopes, bottom of ditchline, or outside of curb.

Utility Franchise UF-SC-2020-002

Dear Mr. Mills,

Enclosed is a draft of Utility Franchise No. UF-SC-2020-002 to operate and maintain a city sewer system for the new overpass on the above referenced section of state highway.

All work, including maintenance, conducted inside of WSDOT Right of Way requires advance authorization from the South Central Utilities Inspection Engineer and the Area Maintenance Superintendent. The Franchise holder must **email the Maintenance Notifications (Attachment “Exhibit E”) to notify the appropriate offices ten (10) working days prior to the Scheduled Start Date of Maintenance.** Include the required Scheduled Maintenance Date and the required Contact Information. This is to ensure compliance with WSDOT policy and assure a State Representative is available to inspect your work if necessary.

The Franchise holder and/or their contractor are responsible for providing work zone traffic control while in State Right of Way and or city/county roads that will be impacted by the work zone. Traffic control plans created by the Franchise holder and/or their contractor must be submitted ten (10) working days prior to the Estimated Start Date of Maintenance for review/approval by the Department Representative (Special Provision 1). All Traffic Control Plans must be WSDOT approved prior to use.

If Don agrees with everything in this agreement document, please have him sign the application page.

Sincerely,

Tanya Martinez

Utility Accommodation (Permit or Franchise)

Utility Company:

Permit/Franchise Number: _____ Expiration: _____ Charge Code*: _____ Group: _____

Date Received: _____ Reviewed By: _____ Region Address: _____

Application Type	Category, Impact to R/W	Fees*	Access Control

In accepting this Franchise Amendment No. _____ to _____, Utility agrees that the General Provisions to the original Franchise shall be replaced in their entirety with the General Provisions as included with this Amendment. All other terms and conditions of the original franchise shall remain in full force and effect.

* The fees required under [WAC 468-34](#) and [RCW 47.44](#) are paid by the Utility to cover the basic administrative expenses incidental to the processing of this application. The applicant promises to pay any additional costs for all work associated with the review, processing and inspection for the proposed installation. Checks or money orders are to be made payable to "Washington State Department of Transportation".

Exhibits

The above-noted Permit, Franchise or Franchise Amendment is subject to the terms and conditions stated in the General Provisions, as well as all the Exhibits.

This Permit or Franchise is issued pursuant to the terms of [RCW 47.32](#), [RCW 47.44](#), and [WAC 468-34](#), and amendments thereto. Renewal of a Franchise must be by application prior to expiration of this Franchise as required by [RCW 47.44.020\(3\)](#).

1. A copy of this Permit or Franchise must be on the job site, protected from the elements, at all times during any construction authorized by this Permit or Franchise.
2. The Utility agrees to pay the reasonable costs for investigating, handling, and granting the Permit or Franchise, including, but not limited to basic overhead charges and for providing an inspector during construction and/or maintenance of the Utility's facilities. Further, the Utility agrees that it shall be responsible for and pay WSDOT's expended direct and indirect costs associated with applicable provisions of the Permit or Franchise. WSDOT will assign a reimbursable account to the Utility as a means of invoicing the Utility for the costs associated with this Permit or Franchise.
 - (a) WSDOT will assign a reimbursable account to the Utility as a means of invoicing the Utility for the costs associated with this Permit or Franchise.
 - (b) WSDOT will invoice the Utility and the Utility agrees to pay WSDOT within thirty (30) calendar days of receipt of an invoice.
3. Upon approval of this Permit or Franchise, the Utility shall diligently proceed with the Work and comply with all General and Special provisions herein. Construction of facilities proposed under this Permit or Franchise shall begin within one (1) year and must be completed within three (3) years from date of WSDOT approval. "Work" under this Permit or Franchise shall mean construction, operation, and maintenance of the Utility's facilities as authorized herein.
4. The Utility shall notify WSDOT representative in special provision 1 of the name, address, and telephone number of its contractor when Work outlined herein is going to be performed with other than its own forces. When the Utility uses a contractor, an authorized representative of the Utility shall be present at all times unless otherwise agreed to by WSDOT representative. A list of authorized representatives shall be submitted prior to the construction start date. (Authorized representatives are defined as persons having signatory authority for the Utility and or the authority to control the Work as needed for any issues identified by WSDOT.)
5. The Utility agrees to schedule and perform its Work in such a manner as not to delay WSDOT's contractor's work when WSDOT has a contractor performing work in the vicinity of the Utility's Work.
6. All contact between WSDOT and the Utility's contractor shall be through the Utility representative. Where the Utility chooses to perform the Work with its own forces, it may elect to appoint one of its own employees engaged in the Work as its representative. The Utility, at its own expense, shall adequately police and supervise all Work performed by itself, its contractor, subcontractor, agent, and/or others, so as not to endanger or injure any person or property.
7. The Utility shall contact the identified WSDOT representative two (2) weeks prior to conducting Work, to determine the location of survey control monuments within the area in which the Utility will be working. In the event any monument or right of way marker will be altered, damaged, or destroyed by the Utility, WSDOT, prior to Utility Work, will reference or reset the monument or right of way marker. During the Work, upon discovery of a monument or right of way marker, the Utility shall cease Work in that area and immediately notify WSDOT of the discovery. WSDOT will coordinate with the Utility to ensure that the monument or right of way marker is recorded or replaced. The Utility agrees to pay all WSDOT costs to perform monument or right of way marker work, as provided in this provision, in accordance with general provision 2.
8. In the event any milepost, fence, or guardrail is located within the limits of the Utility's Work and will be disturbed during Utility Work, the Utility agrees to carefully remove these highway facilities prior to Utility Work and reset or replace these highway facilities after the Utility Work, to WSDOT's sole satisfaction and at the sole cost of the Utility. The Utility agrees that all highway signs and traffic control devices shall not be removed or disturbed during Utility Work.

9. The Utility agrees that all Work shall be done to the satisfaction of WSDOT. All material and workmanship shall conform to [WSDOT's Standard Specifications for Road, Bridge, and Municipal Construction](#), current edition, and amendments thereto, and shall be subject to WSDOT inspection. All WSDOT acceptance and inspections are solely for the benefit of WSDOT and not for the benefit of the Utility, the Utility's contractor (if any), or any third party. The Utility agrees that it shall pay all WSDOT inspection costs in accordance with general provision 2.
10. The Utility shall comply with the [Manual on Uniform Traffic Control Devices for Streets and Highways \(Federal Highway Administration\)](#) and the State of Washington modifications thereto ([chapter 468-95 WAC](#)) while it performs the Work. If WSDOT requires, the Utility shall submit a signing and traffic control plan to WSDOT's representative for approval prior to construction or maintenance Work. No lane closures shall be allowed except as approved by WSDOT's representative. Approvals may cause revision of Special Provisions of this Permit or Franchise, including hours of operation.
11. This Permit or Franchise may not be amended or modified without WSDOT's prior review and approval. Upon completion of the Work, the Utility shall provide a written notice of completion of the Work to WSDOT's representative within ten (10) calendar days of the completion of the Work so that WSDOT may make its final inspection. Further, the Utility shall provide the Region Utilities Engineer with detailed as-built drawings within ninety (90) calendar days of Work completion, if the originally approved Permit or Franchise construction plans have been revised during the course of construction.
12. If WSDOT, at its sole discretion, shall determine that any or all of the Utility's facilities must be modified, removed from, or relocated within the state-owned highway right of way as necessary, incidental, or convenient for the construction, alteration, improvement, repair, relocation, or maintenance of the state highway, or for the safety of the traveling public, the Utility, its successors and assigns, shall, at its sole cost and expense, upon written notice by WSDOT, modify, relocate, or remove any or all of its facilities within or from the state-owned highway right of way as required by WSDOT. The Utility shall perform in a timely manner all facility modifications, relocations, and/or removals as WSDOT directs, to avoid highway project impacts or delays and in such manner as will cause the least disruption of traffic or interference with WSDOT's continued operation and/or maintenance of the highway.
13. Should the Utility fail or refuse to comply with WSDOT's direction, pursuant to general provision 12, to modify, remove, or relocate any Utility facility, WSDOT may undertake and perform any modification, removal, or relocation of the Utility facility that WSDOT, in its sole discretion, deems necessary. The Utility agrees to pay WSDOT's expended costs and expenses for performing the work, in accordance with general provision 2.
14. If WSDOT determines in good faith that emergency maintenance work on the Utility's facility is needed to (a) protect any aspect of the state highway right of way, or (b) secure the safety of the traveling public due to a failure of the Utility's facility, WSDOT may perform the necessary work without the Utility's prior approval, and the Utility agrees to pay WSDOT's expended costs and expenses for performing the work in accordance with general provision 2. WSDOT will notify the Utility of the emergency work performed as soon as practicable.
15. WSDOT may amend, revoke, or cancel this Permit or Franchise at any time by giving written notice to the Utility. If the Permit or Franchise is amended, the Utility will have thirty (30) calendar days to modify the facility as the Permit or Franchise amendment(s) require. If the facility modifications cannot be made within thirty (30) calendar days, the Utility shall respond to WSDOT, in writing, as to when the facility modifications can be made. If the Permit or Franchise is revoked or canceled, the Utility shall immediately remove all facilities from the right of way. Any facilities remaining upon the right of way thirty (30) calendar days after written notice of Permit or Franchise revocation or cancellation may be removed by WSDOT at the expense of the Utility. The Utility agrees to pay WSDOT's expended costs and expenses for performing the work in accordance with general provision 2.
16. Should the Utility breach any of the conditions and requirements of this Permit or Franchise, or should the Utility fail to proceed with due diligence and in good faith with the Work as authorized by this Permit or Franchise, WSDOT may cancel or revoke the Permit or Franchise upon thirty (30) calendar days written notice to the Utility.
17. The Utility shall not excavate or place any obstacle within the state-owned highway right of way in such a manner as to interfere with WSDOT's construction, operation, and maintenance of the state-owned highway right of way or the public's travel thereon without first receiving WSDOT's written authorization.
18. The Utility agrees to maintain, at its sole expense, its facilities authorized by this Permit or Franchise in a condition satisfactory to WSDOT.
19. The Utility agrees that it is financially responsible to WSDOT for all necessary expenses incurred in inspecting the construction and restoring the highway pavement or related transportation equipment or facilities to a permanent condition suitable for travel as determined by WSDOT, as well as financially responsible to WSDOT for trenching

work not completed and for compensating WSDOT for the loss of useful pavement life caused by trenching as required by [RCW 47.44.020](#).

20. Upon completion of all Work, the Utility shall immediately remove all rubbish and debris from the state- owned highway right of way, leaving the state-owned highway right of way in a neat, presentable, and safe condition to WSDOT's satisfaction. Any Workrelated rubbish and debris clean up, or any necessary slope treatment to restore and/or protect the state-owned right of way, not done within one (1) week of Work completion, unless otherwise negotiated, will be done by WSDOT at the expense of the Utility. The Utility agrees to pay WSDOT's expended costs and expenses for performing the work in accordance with general provision 2.
21. For the benefit and safety of the traveling public, the Utility voluntarily agrees to permit WSDOT to attach and maintain upon any Utility facility under this Permit or Franchise any required traffic control devices, such as traffic signals, luminaires, and overhead suspended signs, when the use of such devices or attachments does not interfere with the use for which the facility was constructed. WSDOT shall bear the cost of attachment and maintenance of such traffic control devices, including the expended cost of any extra Utility infrastructure construction beyond what is necessary for the Utility's facility; such extra cost to be jointly determined by WSDOT and the Utility. WSDOT shall not share in the Utility facilities' cost of installation, operation, or maintenance of any of the facilities installed under this Permit or Franchise
22. The Utility shall comply with [WSDOT's Temporary Erosion and Sediment Control Manual \(M 3103.01\)](#) and any revisions thereto, for erosion control and/or to mitigate any erosion occurring as a result of the Work. If the Utility Work performed under this Permit alters, modifies, changes, or interferes in any way with the drainage of the state-owned highway right of way, the Utility shall, at its own expense, make all corrections and/or provisions WSDOT requires to fix and restore the state-owned right of way drainage to its original condition and function prior to the Utility's Work. Any flows from the Utility shall not exceed the flows discharging to WSDOT drainage prior to the new work. Any flows discharged to state- owned highway right of way shall meet the requirements for quantity and water quality according to the current version [Highway Runoff Manual \(M 31-16\)](#). Should the Utility not make the required drainage restoration, WSDOT reserves the right to make such changes as necessary to restore the original drainage function at the sole cost of the Utility, and the Utility agrees to pay WSDOT's expended costs and expenses for performing the work in accordance with Stormwater Discharge General Provision 2.
23. The Utility shall be responsible for securing all necessary permits, including but not limited to, federal, state, and local regulatory, tribal, environmental, archeological, and railroad permits and permits from the Washington State Department of Ecology, the Washington State Department of Fish and Wildlife, and/ or the U.S. Army Corps of Engineers prior to beginning the Work authorized by this Permit or Franchise. The Utility shall be responsible for mitigation measures where wetlands have been disturbed and agrees that it is responsible for any fines imposed for noncompliance with the permit(s) conditions or for failure to obtain the required permits. In addition, the Utility, on behalf of itself and its contractors, officers, officials, employees, and agents, agrees to indemnify, hold harmless, and defend, at its sole cost and expense, WSDOT and its officers, officials, employees, and agents from any and all fines, costs, claims, judgments, and/or awards of damages (to regulatory agencies, persons, and/or property), arising out of, or in any way resulting from, the Utility's failure to (1) obtain any required permit for the Utility Work or (2) comply with permit conditions. Further, the Utility shall be responsible for compliance with all federal, state, and local laws, regulations.
24. For any of the Utility's Work that requires permit coverage under the "CONSTRUCTION STORMWATER GENERAL PERMIT – National Pollutant Discharge Elimination System and State Waste Discharge General Permit for Stormwater Discharges Associated with Construction Activity" (Construction Stormwater General Permit), the Utility shall obtain said permit coverage and shall comply with all requirements of the Construction Stormwater General Permit. Upon WSDOT's request, the Utility shall provide a copy of the Construction Stormwater General Permit. In addition, the Utility, on behalf of itself and its contractors, officers, officials, employees, and agents, agrees to indemnify, hold harmless, and defend, at its sole cost and expense, WSDOT and its officers, officials, employees, and agents from any and all fines, costs, claims, judgments, and/or awards of damages (to regulatory agencies, persons, and/or property), arising out of, or in any way resulting from, the Utility's failure to (1) obtain coverage under the Construction Stormwater General Permit for Utility Work or (2) comply with the Construction Stormwater General Permit requirements.

25. This Permit or Franchise does not authorize the Utility, or its employees, contractors, or agents, any right to cut, spray, retard, remove, destroy, disfigure, or in any way modify the physical condition of any vegetative material located on the state-owned highway right of way. Should the Utility anticipate that its Work will alter the appearance of the state-owned highway right of way vegetation, the Utility shall notify WSDOT representative listed in special provision 1 to obtain WSDOT's prior written approval of the Utility's proposed work. If WSDOT permits the Utility to modify the state-owned highway right of way vegetation, it agrees that any vegetation cutting and/or trimming activities shall be conducted in such a manner that the state-owned highway right of way vegetation appearance will not be damaged. Should the Utility damage the appearance of the state-owned highway right of way vegetation without WSDOT's prior written approval, the Utility is subject to penalties provided for in RCWs [47.40.070](#), [47.40.080](#), and [4.24.630](#), as applicable.
26. The Utility hereby certifies that its facilities described in this Permit or Franchise are (1) in compliance with the Control Zone Guidelines, or (2) for a franchise consolidation or renewal, a mitigation plan has been submitted and approved for any existing Location I or Location II utility objects to be corrected in accordance with the Control Zone Guidelines, pursuant to Chapter 9 of WSDOT's [Utilities Manual \(M 22-87\)](#) and any revisions thereto.
27. The Utility shall not assign or transfer this Permit or Franchise without WSDOT's prior written approval. The Utility understands that any assignment or transfer requires the assignee or transferee to have the means to assume all obligations, duties, and liabilities of the terms and conditions of this Permit or Franchise, and the Utility will advise the assignee or transferee of its obligation to apply for an updated or replacement Permit or Franchise. If WSDOT does not approve the assignment or transfer, this Permit or Franchise shall automatically terminate, and the facility occupying state-owned highway right of way shall be subject to the terms of RCW [47.44.060](#).
28. The Utility, its successors and assigns, shall indemnify, defend at its sole cost and expense, and hold harmless the State of Washington, its officers and employees, from all claims, demands, damages (both to persons and/or property), expenses, regulatory fines, and/or suits that (1) arise out of or are incident to any acts or omissions of the Utility, its agents, contractors, and/or employees, in the use of the state-owned highway right of way as authorized by the terms and conditions of this Permit or Franchise, or (2) are caused by the breach of any of the terms or conditions of this Permit or Franchise by the Utility, its successors and assigns, and its contractors, agents, and/or employees. The Utility, its successors and assigns, shall not be required to indemnify, defend, or hold harmless the State of Washington, its officers and/or employees, if the claim, suit, or action for damages (both to persons and/or property) is caused by the acts or omissions of the State of Washington, its officers and/or employees; provided that, if such claims, suits, or actions result from the concurrent negligence of (a) the State of Washington, its officers and/or employees, and (b) the Utility, its agents, contractors, and/or employees, or involves those actions covered by RCW [4.24.115](#), the indemnity provisions provided herein shall be valid and enforceable only to the extent of the acts or omissions of the Utility, its agents, contractors, and/or employees.
29. The Utility agrees that its obligations under this Permit or Franchise extend to any claim, demand, and/or cause of action brought by, or on behalf of, any of its employees or agents while performing Work under this Permit or Franchise while located on state-owned highway right of way. For this purpose, the Utility, by MUTUAL NEGOTIATION, hereby waives, with respect to the State of Washington only, any immunity that would otherwise be available to it against such claims under the Industrial Insurance provisions in [chapter 51.12 RCW](#).
30. The indemnification and waiver provided for in general provisions 28 and 29 shall survive the termination of this Permit or Franchise.
31. Any action for damages against the State of Washington, its agents, contractors, and/or employees, arising out of damages to a utility or other facility located on state-owned highway right of way, shall be subject to the provisions and limitations of [RCW 47.44.150](#).
32. This Permit or Franchise shall not be deemed or held to be an exclusive one and shall not prohibit WSDOT from granting rights of like or other nature to other public or private utilities, nor shall it prevent WSDOT from using any of the state-owned highway right of way or other properties for transportation purposes, or affect WSDOT's right to full supervision and control over all or any part of the state-owned highway right of way or properties, none of which is hereby surrendered. Further, WSDOT reserves the exclusive right to require that all utility facilities be subject to joint trenching and occupancy.

Special Provisions for Permits and Franchises

Applicable provisions are denoted by (X)

1. No Work provided for herein shall be performed until the Utility is authorized by the Washington State Department of Transportation (WSDOT) Representative(s):

Department Representative:

Jason Harris
SCR Region Utilities Inspector
2809 Rudkin Road
Union Gap, WA 98903-1648

Phone: (509) 577-1748
Fax: (509) 577-1686
Cell: (509) 654-8385

Maintenance Area Representative:

Kara Shute
Area 3 Maintenance Superintendent
1816 North 4th Ave.
Pasco, WA 99301

Phone: (509) 577-1933 Ext.5
Fax: (509) 545-2412
Cell: (509) 948-0178

The Utility shall notify in writing the identified WSDOT representative(s) at least **ten (10)** working days (Monday through Friday excluding any holidays) in advance of commencing Work on state-owned highway right of way.

2. Prior to beginning the Work, a pre-construction conference shall be held at which WSDOT, Utility's engineer, contractor, and inspector (as applicable) shall be present. The Utility shall give a minimum 5 working days (Monday through Friday excluding any holidays) notice to WSDOT's representative(s) (prior to the pre-construction conference).
3. Work within the state-owned right of way shall be restricted to **daylight hours**. No work shall be allowed on Saturday, Sunday, or holidays, without prior approval by WSDOT. In addition, the Utility shall be off the highway by noon the day prior to a holiday unless authorized by the WSDOT. If a holiday falls on a Saturday, the preceding Friday is counted as the holiday, and the Utility shall be off the highway by noon Thursday. When the Holiday falls on a Monday, the Utility shall be off the right of way at noon on the preceding Friday. Nothing in this section shall limit the authority of the WSDOT to further restrict work within state-owned highway right of way at WSDOT's discretion. The hours of closure are subject to change if required by WSDOT.
4. During non-working hours equipment and materials shall not be located or stored within the work zone clear zone (WZCZ) area. Minimum WZCZ distances will be measured from the edge of the traveled way (the portion of the roadway intended for the movement of vehicles, exclusive of shoulders and lanes for parking, turning, and storage for turning) and will be determined as follows:

Minimum Work Zone Clear Zone Distance

Posted Speed	Distance From Traveled Way (ft)
35 mph or less	10
40 mph	15
45 to 50 mph	20
55 to 60 mph	30
65 mph or greater	35

5. In the event that during the course of this project an inadvertent discovery of historical/archeological objects, human remains, or a bone/bones of uncertain origin is made, the Utility shall immediately cease operations and contact the WSDOT Representative in section 1 and the Department Archaeologist:

Name: Dean Weaver
Phone: 509-324-6137
E-mail: weaverd@wsdot.wa.gov

Determination of necessary follow-up actions or the ability to continue work shall be at the sole discretion of WSDOT.

6. The Utility agrees that, in the event any construction and/or maintenance of the highway facility becomes necessary within the proximity of the utility installation, it is expressly understood that, upon request from WSDOT's representative, the Utility will promptly identify and locate by suitable field markings any and all of its underground facilities so that WSDOT or its contractor can be fully apprised at all times of their precise locations.
7. Construction of this facility will not be permitted from the shoulders or through the traffic lanes and/or ramps of SR . All construction access will be from .
8. All vehicles and equipment that are not essential for the Work shall not be parked on the shoulders or thru-traffic lanes and/or ramps of SR .

- 9. No additional side (service) connections will be allowed within State right of way after the construction of the facility authorized by this Permit or Franchise.
- 10. The responsibility of the Utility for proper performance, safe conduct, and adequate policing and supervision of the Work shall not be lessened or otherwise affected by WSDOT's approval of plans, specifications, or work, or by the Department representative's presence at the work site.
- 11. The Utility acknowledges that SR 395 is scheduled for future construction. All work shall be coordinated with the Project Engineer's Office responsible for this project. Relocation and/or adjustment of this facility at the time of construction will be at the expense of the Utility.
- 12. The Utility shall notify WSDOT's representative upon completion of project for final inspection / review.

BOND AND INSURANCE COVERAGE

- 13. The Utility has provided bond coverage for the Work under this Permit or Franchise by furnishing a blanket surety bond held by WSDOT at the WSDOT Headquarters Utilities Unit in Olympia, WA.
- 14. The Utility or its contractor shall provide a surety bond to WSDOT in the amount of \$ _____, written by a surety company authorized to do business in the State of Washington, or shall set up a WSDOT approved escrow account prior to the start of construction to cover the Work under this Permit or Franchise. The surety bond or escrow account shall remain in force for a period of one (1) year after the written notice of completion of the Work (as provided in general provision 11), except that when the Work impacts the paved highway (open cuts, bores or damage to the highway surface), the Utility shall be required to maintain the surety bond or escrow account for a period of two (2) years after the notice of completion.
- 15. When the Utility chooses to perform the Work with other than its own forces and requires its contractor to provide a surety bond to WSDOT before performing any Work to ensure compliance with all of the terms and conditions of this Permit or Franchise, the bond shall be in the amount of \$ _____, written by a surety company authorized to do business in the State of Washington and shall remain in force until all Work under this Permit or Franchise has been completed, and the Utility's contractor has restored any affected WSDOT property and right of way to the satisfaction of the Department.
- 16. The Utility shall provide proof of insurance coverage prior to performing any Work within state-owned highway right of way, as follows:
 - (a) Commercial General Liability covering the risks of bodily injury (including death), property damage, and personal injury, including coverage for contractual liability, with a limit of not less than \$3 million per occurrence and in the aggregate;
 - (b) Business Automobile Liability (owned, hired, or non-owned) covering the risks of bodily injury (including death) and property damage, including coverage for contractual liability, with a limit of not less than \$2 million per accident;
 - (c) Employers Liability covering the risks of Utility's employees' bodily injury by accident or disease, with limits of not less than \$1 million per accident for bodily injury by accident and \$1 million per employee for bodily injury by disease.

Such insurance policies or related certificates of insurance shall name the Washington State Department of Transportation as an additional insured on all general liability, automobile liability, employers' liability, and excess policies. A forty-five (45) calendar day written notice shall be given to WSDOT prior to termination of or any material change to the policy(ies) as such relate(s) to this Permit or Franchise.

- 17. If the Utility is a city or county, it has provided verification of insurance coverage to WSDOT by providing proof of its coverage through a Risk Pool or verification that the city or county is self-insured, to comply with the insurance terms and conditions of this Permit or Franchise.

UNDERGROUND FACILITIES

- 18. All facilities in joint use conduits shall relocate together at such time as the conduit owner moves their conduit or WSDOT deems relocation necessary. The conduit owner is responsible to remove the conduit or conduits in their entirety. (The conduit owner is the Permit or Franchise holder under which the conduits were installed.)
- 19. A Utility that is installing conduit for future use must apply for a new Permit or Franchise amendment when they are ready to occupy the empty conduit. If a third-party Utility is to occupy the empty conduit the conduit owner must instruct them to apply for a Permit or Franchise with WSDOT before occupying the conduit.
- 20. The Utility shall completely remove all Deactivated Facilities (as defined in Washington State Department of Transportation Utilities Manual M 22-87).
- 21. Deactivated facilities left within the state owned right of way shall remain owned by the Utility, who shall continue to bear all responsibility for any future costs incurred for removal of the Deactivated facilities if required by WSDOT in its sole discretion.
- 22. For underground facilities, markers shall be placed at both ends of a crossing, and at all changes in offset distance from right of way line or centerline of the highway and placed approximately every 500 feet for longitudinal installations. Marker information as a minimum shall include owner name, pipeline or cable identification and station, and telephone number or other means to contact a local office. Markers must be in compliance with WSDOT's *Standard Specifications for Road, Bridge, and Municipal Construction Manual* M 41-10, Division 9 (9-17 Flexible Guideposts), not create a safety hazard, and all markers shall be placed and maintained so

as to minimize interference with WSDOT maintenance operations. It is the Utility's responsibility to maintain its markers. Maintenance of markers includes but is not limited to update of Utility's name (if changed) or Utility's successors' or assigns' contact information, and replacement of damaged or missing markers.

- 23. All underground facilities shall include a component by which the utility can be located with conventional methods, provided that for all installations in trenches, the Utility shall install detector tape approximately 12 inches above the underground facility. The tape shall conform to the standards of the American Public Works Association Uniform Color Code.
- 24. Utility facilities or casings for facilities crossing under highways surfaced with oil, asphalt concrete pavement, or cement concrete pavement shall be by trenchless construction, using the appropriate equipment to jack, bore, or auger the facility through the highway prism with a minimum depth of 5 feet along any point from the top of facility to the lowest point of the finished highway grade, at a minimum of 3.5 feet depth from bottom of ditch/toe of slope to top of facility or casing.
- 25. If PVC or HDPE casings are utilized for crossings, they shall be greater than Schedule 80 or equivalent or as approved by WSDOT.
- 26. Casing requirements (WAC 468-34-210) for utilities are specified individually or in whole on the attached exhibits. Any variances to these casing requirements shall be justified, in writing, and approved by WSDOT, in writing, prior to installation.
- 27. Pipeline installation shall meet the provisions of chapter 480-93 WAC, Gas Companies-Safety, and amendments thereto.
- 28. Open trenching (cutting a trench for direct placement of a utility that does not include cutting an existing paved highway surface) will only be allowed at the locations identified on the plan sheets and/or listed on Exhibit(s) _____, with restoration to be performed as noted on the attached "Open Trench Detail," Exhibit _____.
- 29. Open cuts (cutting a trench for direct placement of a utility that does include cutting the existing paved highway surface) of the highway are a variance to WSDOT policy, requiring justification (Open Cut Variance Request) and approval by WSDOT prior to the Work beginning. Open cuts are only allowed at approved locations identified on the plan sheets and/or listed on Exhibit(s) _____, with restoration to be performed as noted on the attached "Open Cut Detail," Exhibit _____.
- 30. If determined necessary by WSDOT representative, any or all of the excavated material shall be removed and replaced with suitable material as specified by WSDOT. It is the Utility's responsibility to obtain any necessary permits or comply with applicable requirements to haul or dispose of any excavated material.
- 31. If determined by the Washington State Department of Labor and Industries and/or WSDOT representative that extra Shoring (beyond that specified in Section 7-08.3(1)B of WSDOT's Standard Specifications for Road, Bridge, and Municipal Construction) is necessary for the safety of the workers or the protection of the highway pavement, the trenching or excavation work shall be stopped and no Work in the trench or excavation area will be allowed until satisfactory modifications are made.
- 32. All trenches, boring or jacking pits, etc., shall be backfilled as soon as possible. If left open during nonworking hours, they shall be protected to the satisfaction of WSDOT. Methods of protection shall be submitted a minimum of _____ () calendar days in advance for approval by WSDOT prior to use.
- 33. During working hours, all open trenches shall be marked by warning signs, barricades, and flashing beacons. If necessary, flagmen shall be employed for the purpose of protecting the traveling public.
- 34. The highway shoulders, where disturbed, shall be resurfaced in kind with crushed surfacing top course at _____-inch minimum compacted depth, or as directed by the Department's representative. The surface of the finished shoulder shall slope down from the edge of pavement at the rate of 5% unless otherwise directed. Any restored shoulders shall not have any sections less than 2 feet wide.
- 35. The Utility shall use hot mix asphalt for all roadway pavement restoration. WSDOT will not allow the use of cold mix for any roadway patching longer than 24 hours.
- 36. Utility Facilities installed longitudinally within Zone A shall have a minimum cover of 60 inches. In areas where there is consolidated rock, if the required depth cannot be met, a variance must be approved.
- 37. Utility facilities installed longitudinally within Zone B, outside of Zone A, shall have a minimum cover of 42 inches except in consolidated rock where it is necessary to saw or blast the rock to install the facility, the minimum cover may be 24 inches.
- 38. All facilities constructed in Zone A shall use conduit.
- 39. Zone A requirements also apply from Milepost _____ to Milepost _____.

AERIAL/ABOVEGROUND FACILITIES

- 40. All facilities on joint use poles shall be relocated at the time the pole owner either moves or removes their poles. (The pole owner is the Permit or Franchise holder under which the poles were installed and is responsible for ensuring the removal of the pole.)
- 41. Neutral conductors associated with circuits of 0 to 22 Kilovolts, where the neutral is considered to be 0-750 Volts, shall have a minimum clearance of 24 feet Vertical Clearance as indicated in WAC 468-34-290, or 20 feet provided the facility is grounded at each pole at each end of the crossing.
- 42. The Utility agrees to underground the aboveground facilities covered by this Franchise in Scenic Classes "A," and "B," as defined on the attached Exhibit(s) _____, either at the time of major construction of the facility, for that portion of facility to be reconstructed, or prior to expiration of this Franchise.

- 43. The Utility agrees to underground the aboveground facilities covered by this Franchise in Scenic Classes "A," "AX," "B," and/or "BX," as defined on the attached Exhibit(s) _____, at the time the pole owner undergrounds its facility. The existing aboveground facility may remain or be relocated as aboveground in Scenic Classes "AX" or "BX", if acceptable to WSDOT.
- 44. The Utility agrees to underground or relocate the existing aboveground facilities covered by this Franchise in Scenic Classes "A," "AX," "B," and/or "BX," as defined on the attached Exhibit(s) _____, to a location acceptable to WSDOT either at the time of reconstruction, for the portion of line to be reconstructed, or prior to the expiration of this Franchise. The existing aboveground facility may remain or be relocated as aboveground in Scenic Classes "AX" or "BX", if acceptable to WSDOT.
- 45. The Utility shall not place any new poles within the right-of-way.
- 46. Use of guard posts for proposed fire hydrant installations shall not be permitted within the right-of-way.

MAINTENANCE

- 47. No routine maintenance of the facility authorized by this Permit or Franchise will be allowed within the limited access area.
- 48. Maintenance access of this facility will not be permitted from the shoulders, thru-traffic lanes, and/or ramps of _____, and all service to this facility will be accessed from _____.
- 49. The Utility will notify WSDOT representative(s), listed in Special Provision 1, **ten (10)** working days (Monday through Friday excluding any holidays) prior to any scheduled maintenance work to be performed in the state-owned highway right of way.

ADDITIONAL PROVISIONS

- 50. The Utility shall maintain two way traffic at all times.
- 51. The Utility shall utilize the approved Traffic Control Plan provided.
- 52. When requested, the Utility will provide to the Region Utilities Engineer copies of any federal, state and local permits referenced in Section 23 of the General Provisions.
- 53. The Utility shall submit a blasting plan for approval to the office of the Regional Utilities Engineer prior to any blasting within the right-of-way.
- 54. Should the Utility choose to perform maintenance with other than its own forces, the Utility shall notify the Department's representative, by email, as to the name, address, and telephone number of the contractor by filling out the Contractor information on the Maintenance Notification Form, exhibit E.
- 55. **CALL BEFORE YOU DIG:** Utility Notification Center, **811** or 1-800-424-5555. It is the Utility's responsibility to contact the one call center pursuant to RCW 19.122. Any locations or dimensions provided for existing facilities on plan sheets provided by the WSDOT are in accordance with available information obtained without uncovering, measuring, or other verification.
- 56. The Utility is responsible to ensure that re-vegetation is established to pre-construction conditions. Clean up and application of two-stage hydroseeding shall occur as soon as practical following the installation.
 - a. The hydroseed application requires 35lb. per acre of Pure Live Seed (PLS) of a site specific seed mix specified by the State and 2700lb. of Long Term Mulch. The two-stage seeding shall begin with 250lb. of mulch mixed with the seed applied directly to the ground, with the remaining 2450lb. of mulch applied on top. Fertilizer shall be applied at a rate of no more than 10lbs. nitrogen per acre.
 - b. The contractor shall provide evidence (the tag from the seed bag or a copy of the invoice from the vendor with the details of the seed mix listed) that the seed mix meets the Department specifications. In addition, a sample of the seed mix (no less than 1 oz.) must be provided to the inspector. See Exhibit(s) "E" for site specific requirements.
- 57. The Utility shall be responsible for securing the required Department of Natural Resources (DNR) easement(s) and shall provide a copy of the easement(s) to the WSDOT Regional Utilities Engineer prior to installing any utility facilities across DNR land or waterways.
- 58. Only equipment with rubber tires or street pads will be allowed on the roadway. Tracked vehicles with cleats or other devices that may damage the road surfacing will not be allowed.
- 59. Vacuum excavation for utility location shall not exceed 8" in diameter. Material removed below the asphalt shall be replaced with control density fill. The pavement shall be restored to match the existing depth with Hot Mix Asphalt in compacted lifts not to exceed 0.30'. The pavement shall be sealed to bond the patch to existing asphalt and prevent water infiltration.
- 60. WSDOT is in the process of studying how fiber optic lines should be accommodated within WSDOT-owned right of way under state law and, specifically, what form of agreement should be utilized. In order to not cause undue delay in fiber optic line installations, WSDOT has determined to issue this Franchise or Permit for fiber optic facilities pending the outcome of the study and the implementation of a new policy, if any; provided, that the Utility expressly acknowledges and agrees that this Franchise or Permit is issued subject to the amendment, revocation, and cancellation provision under General Provision 15 upon a determination by WSDOT that the use does not qualify for a franchise or permit under state law. In the event of such a revocation or cancellation, all facilities installed hereunder will become subject to the terms and conditions of the new policy or practices, including, but not limited to, the execution of a new form of agreement, and payment of fair market rent, if so required. The Utility expressly acknowledges and agrees that the issuance of this Franchise or Permit creates no right or expectation regarding the terms and conditions under which the facilities may occupy WSDOT-owned right of way in the future.

improvements, through the roundabout and along the future Zintel Way corridor.

- Cascade Natural Gas will need 30 days lead time from Contractor to order materials before starting work.

Charter/Spectrum

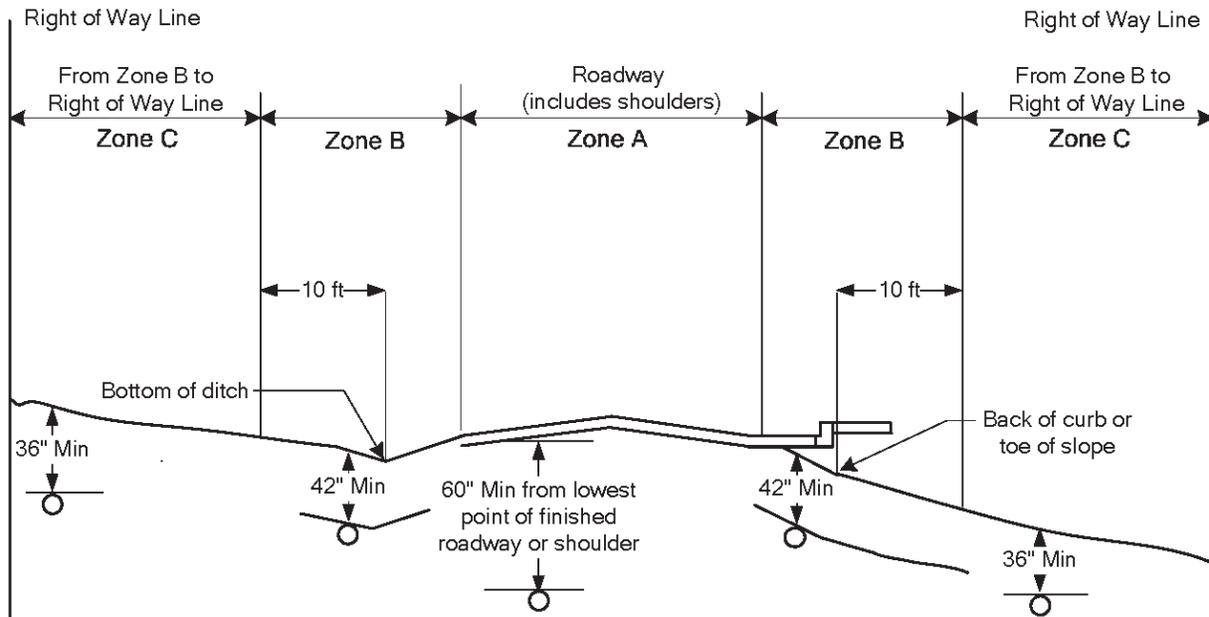

- Conduits within Ridgeline Drive that will be affected by grade change are empty and can be abandoned. Maintain conduit/lines that feed Plaza Way west of roundabout.
- Buried television from HX 65+00 to HX 66+25, RT and HX 67+85 to HX 72+40, LT to be retained and protected.

City of Kennewick

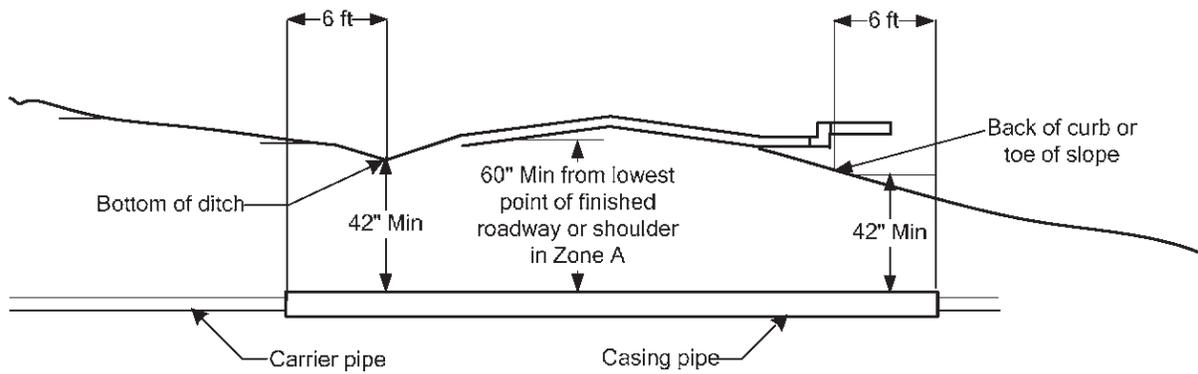

- Existing 18" concrete irrigation pipe for conveyance of K.I.D. Canal at M 1020+30 to be plugged and covered over.
- Existing 16" water in 30" steel casing from RX 51+31 to 66+70 shall be reconstructed by the contractor as part of the project.
- Existing 12" water from RX 51+31 to RX 55+60 and RX 67+15 shall be reconstructed/extended by the contractor as part of the project.
- 18" concrete culvert crossing of US 395 at M 1049+90 will be abandoned in place.
- 36" storm sewer crossing at M 1062+70 to be retained and protected.
- Sanitary sewer system from RX 51+31 to RX 55+65 will be impacted by the overcrossing. The line east of CX shall be removed by the contractor as part of the project. Existing manhole lids shall be adjusted to grade.
- Storm sewer at RX 52+70 will require minor grade adjustments to be made by the contractor as part of the project.
- Storm sewer at RX 54+70 shall be removed by the contractor as part of the project.
- 24" culvert at RX 56+05 shall be removed by the contractor as part of the project.
- Storm sewer at RX 56+50 shall be removed by the contractor as part of the project.
- Culvert at RX 59+00 shall be removed by the contractor as part of the project.
- Culvert at intersection of Ridgeline and Bofer Canyon Road shall be removed by the contractor as part of the project.
- Dry sewer line at Zintel Way and Ridgeline shall be constructed by the contractor as part of the project.
- Existing culverts (2) at HX 66+35 shall be removed and replaced by the contractor as part of the project.
- Existing culvert at HX 67+65 shall be removed and replaced by the contractor as part of the project.
- Storm sewer at HX 67+85 shall be removed and replaced by the contractor as part of the project.
- Waterline from HX 69+65 to HX 72+40 shall be retained and protected.

Williams Northwest Pipeline

- 6" high pressure natural gas line at M 1010+35 to be retained and protected.
- 6" high pressure natural gas line in 10" conduit at 1019+55 to be retained and protected.

Longitudinal Coverage Detail

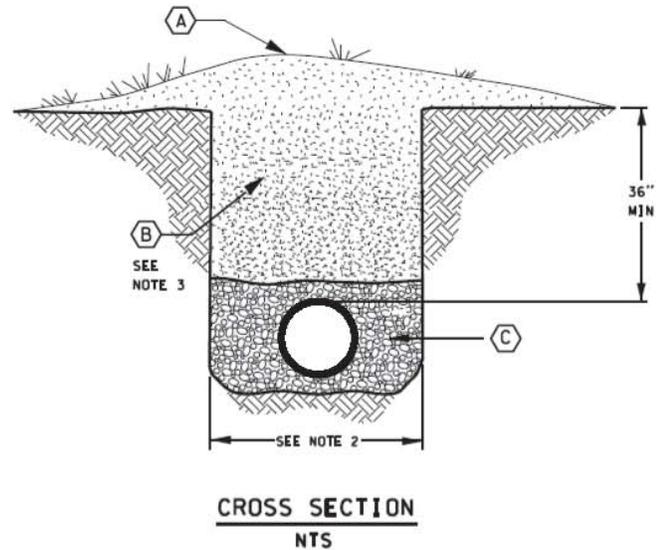

Note:

Casing pipes shall extend a minimum of 6 feet beyond the toe of fill slopes, or bottom of ditch line, or outside curb.

Crossing Coverage Detail

Minimum Cover for Pipe Installation
Figure 120-3

City of Kennewick
Exhibit D
UF-SC-2020-002
Page 1 of 2

**LEGEND**

- (A) Surface treatment to restore existing to match adjacent (seeding, bark, etc.).
- (B) Native material or as directed by WSDOT.
- (C) Bedding material. Bedding material depth over and beneath pipe casing shall be half the diameter of pipe casing or 6 inches, whichever is less.

GENERAL NOTES

1. Trenching and pipe installation shall meet the requirements of WSDOT Standard Specification 7-08.
2. Maximum trench width shall be outside casing pipe width plus 1 foot either side of casing pipe.
3. Compaction shall be method _____ per Standard Specification Section 2-03.3 (14) C.
4. When connecting to an existing facility under the pavement, pavement restoration may, at the department's discretion, include the full lane width and encroached shoulder.
5. Casing pipes shall extend a minimum of six (6) feet beyond the toe of fill slopes, bottom of ditchline, or outside of curb.

Open Trench Detail
Figure 120-4b

MAINTENANCE NOTIFICATION

- 1) Receive Executed Permit
- 2) **Submit Construction Notification to parties below 10 business days prior to scheduled work**
- 3) **Receive written or verbal Authorization from WSDOT to Proceed**
No work shall take place until the Utility is authorized by WSDOT

Recommendation

Adopt Resolution 20-12, authorizing the design and construction of the Wastewater Treatment Plant Upgrade Project.

Motion for Consideration

I move to adopt Resolution 20-12.

Summary

At the September 8th Council Workshop staff provided a presentation and update to the City Council on the Wastewater Treatment Plant Upgrade Project. This presentation included information on the planned phased improvements in the 2015 Wastewater Treatment Plant Facility Plan, along with a new concept for Biosolids Management referenced as Florida Green.

City Staff and their consultant J-U-B Engineers completed a Technical Memorandum comparing cost and operations between the Facility Plan and Florida Green. Based on capital and operational cost, permit compliance, reliability, ability to expand, energy efficiency, odor potential, ease of operations and ease of disposal, the Florida Green concept was ranked as the preferred alternative. Staff recommended moving forward with design and construction utilizing the Florida Green concept for Biosolids Management.

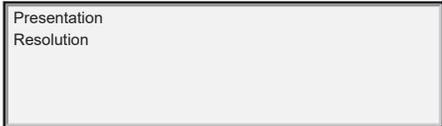

Resolution 20-12 authorizes the design and construction of the Wastewater Treatment Plant Upgrade Project in accordance with the Florida Green treatment option.

Wastewater Treatment Plant Upgrade Council Workshop Update

September 8, 2020

Cary M. Roe, PE, Public Works Director

John A. Cowling, PE, Utility Services Manager

Ted Merrell, Vice President, Co-Owner, Merrell Brothers

Wastewater Treatment Plant Upgrade

- Background

- In 2015 the City completed the Wastewater Treatment Plant Facility Plan
- Goals of the plan included:
 - Updating flow and load projections through 2034
 - Evaluation of major unit processes
 - Development of alternatives to address critical needs
 - Preparation of a phased capital improvement plan

- The plan proposed four phases of improvements to retain adequate treatment capacity, maintain reliable operation and satisfy known permit conditions. The phases were spread out over 10 to 20 years

Wastewater Treatment Plant Upgrade

Current Facility Plan Phases

Phase I (Complete)

- Replace Ultraviolet (UV) Disinfection System, generator, headworks bypass, Aerated Sludge Lagoon lift station.

Phase II (Next)

- Waste activated sludge thickening and anaerobic digestion
- Mechanical dewatering of digested solids

Phase III

- Grit removal
- New concrete aeration basins with fine bubble aeration

Phase IV

- Green houses (Class A biosolids)

Wastewater Treatment Plant Upgrade

- Facility Plan Phase II
 - *WWTP Facility plan proposed anaerobic digestion to process biosolids*
 - *addresses current odor issues*
 - *more predictable processing*
 - *produces Class B biosolids*
 - *Class B biosolids have limited land applications available due to the presence of detectable pathogens.*
 - *The City currently processes biosolids after lagoon dredging / de-watering and land applies them at Natural Selection Farms*
 - *Management of Class B biosolids has an ongoing contracted cost of ~2.5 Million every 3-4 years.*

Anaerobic Digester

Natural Selection Farms

Wastewater Treatment Plant Upgrade

- Florida Green Concept
 - *Merrell Brothers, an expert in biosolids management developed/patented this process and opened the first plant of it's type in the country in Pasco County, Florida*
 - *This process has the potential of significant cost savings to produce Class A biosolids when compared to the current Facility Plan*

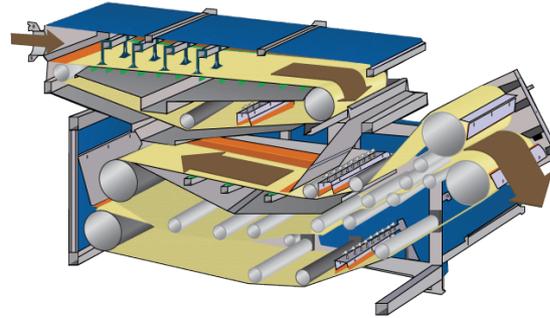

Merrell Brother Biosolids Plant, Pasco County, FL

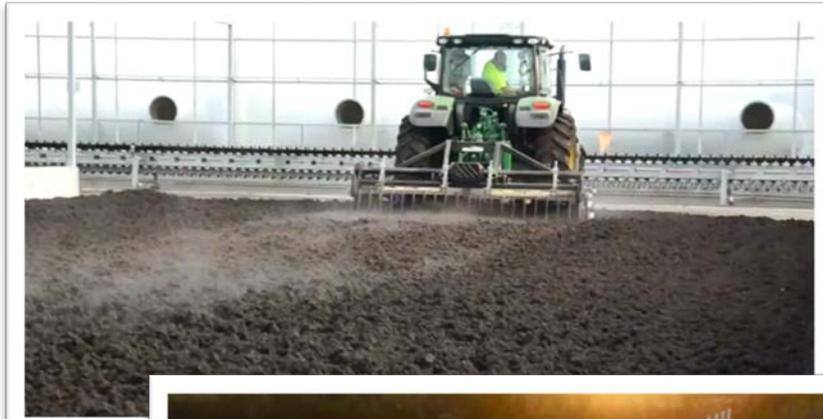

Wastewater Treatment Plant Upgrade

- How it works:
 - *Step 1: WWTP Sludge is dewatered by belt filter press to achieve ~20% solids*

Step 1

- *Step 2: Dewatered biosolids are spread in a greenhouse for pre-drying to achieve ~60% solids through evaporation by solar heat, tilling and air circulation*

Step 2

- *Step 3: Air is moved through the greenhouse and is scrubbed through an activated carbon filter to emit odor free air*

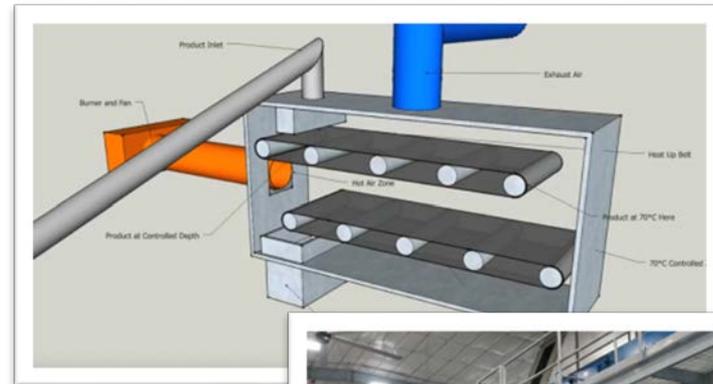

Step 3

Wastewater Treatment Plant Upgrade

- How it works:

- Step 4: Biosolids are transferred from the greenhouses to a day hopper and finally a thermal dryer. The thermal dryer is designed to meet EPA regulation for pasteurization of 70°C (158°F) for 30 minutes.

Step 4

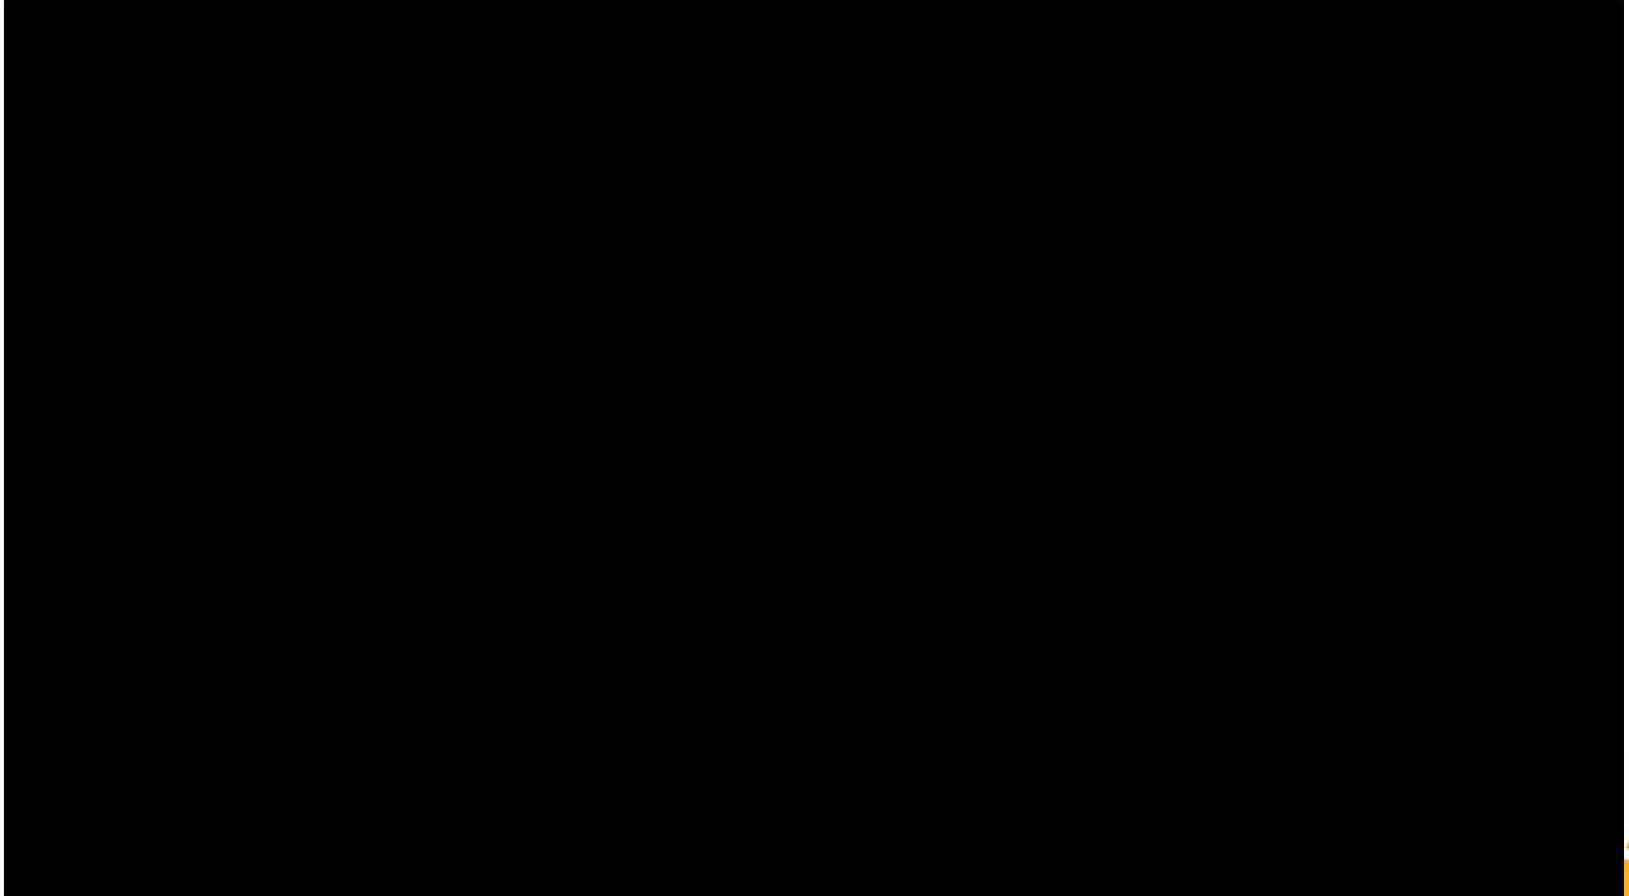

Step 5

- Step 5: Final product is Class "A" biosolids that do not have the same use or application restrictions as Class "B" due to pathogen reduction
- Class A can be used as fertilizer for crops.

Wastewater Treatment Plant Upgrade

- How it works:
 - The Process & The Science

Wastewater Treatment Plant Upgrade

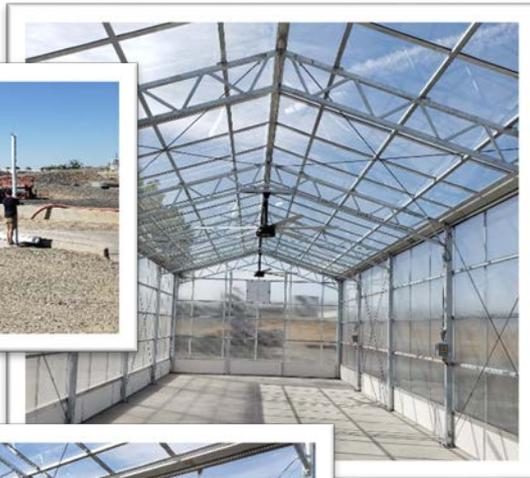

Portable Belt Press

- Current Status:

- *The City in coordination with Merrell Brothers completed a pilot study to validate how the process works in Kennewick climate (summer & winter)*

Temporary Greenhouse

- *The pilot project consisted of the following:*
 - *Portable belt pressing*
 - *Construction of a temporary greenhouse and air scrubber*
 - *Drying and tilling of solids until 60% solids achieved*
 - *Shipping biosolids to FL for pasteurization in a belt dryer*
 - *Final Class A biosolids shipped back to Kennewick for testing and evaluation*

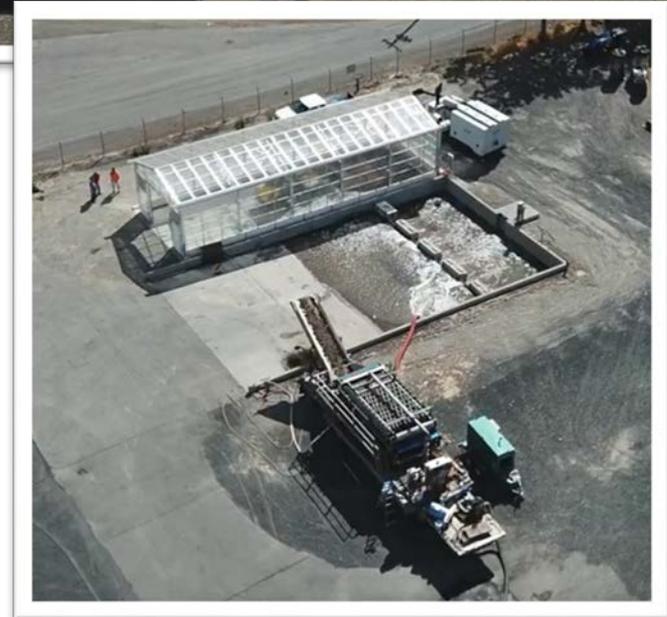

Wastewater Treatment Plant Upgrade

- Current Status:

- *Seasonal pilot studies were completed*
 - *Summer – complete (Aug/Sept 2019)*
 - *Winter – (Jan/Feb 2020)*
- *Pilot studies were successful. Dry time was longer in the winter months which indicates the need for in floor heating in the greenhouse slabs for colder months.*
 - *The longer dry time in the winter will determine the sizing needs for the greenhouses to provide additional capacity.*

Portable Carbon Filter

Wastewater Treatment Plant Upgrade

- Current Status:

- The City and our consultant JUB Engineers have completed a Technical Memorandum looking at the Cost and Operational Comparison of Biosolids Management in the current Facility Plan and Florida Green
- Management options were ranked based on capital and operational cost, permit compliance, reliability, ability to expand, energy efficiency, odor potential, ease of operations and ease of disposal
- Based on these factors Florida Green ranked as the preferred method for biosolids management

Component	Facility Plan		Cost, Millions, 2020	Florida Green	
	Phase 2 ^A	Phase 4 ^B		Component	Cost, Millions, 2020
Thickening, Digestion, Dewatering	\$16.22		\$18.74	Dewatering Unit Process	\$18.61
Contingency 30%	\$4.87		\$5.62	Solar Drying Greenhouses	
State Sales Tax	\$1.75		\$2.02	Thermal Drying Unit	
Design/CMS	\$4.22		\$4.87	Contingency 30%	\$5.58
Legal Administrative	\$0.21		\$0.24	State Sales Tax	\$1.54
Present Value of Annual Operating Cost	\$10.1		\$11.66	Design/CMS	\$3.14
PV of Disposal	\$ 3.1 ^C		\$3.54	Legal Administrative	\$0.19
Solar Dryers		\$6.17	\$7.13	Present Value of Annual Operating Cost	\$13.28
Contingency 30%		\$1.85	\$2.14	PV of Disposal	???
State Sales Tax		\$0.67	\$0.77		
Design/CMS		\$1.60	\$1.85		
Legal Administrative		\$0.08	\$0.09		
Present Value of Class A Disposal		\$0.46	\$0.53		
Present Value of Annual Operating Cost		\$3.15	\$3.64		
Phase Total		\$13.98	\$16.15		
Phase Total	\$40.43		\$43.69		
Total		\$54.41	\$62.84	Total	\$42.34

^A Facility Plan Table 7-14, Breakdown, with labor rate at \$60/hr
^B Facility Plan Table 7-18, Breakdown, with labor rate at \$60/hr
^C Present value cost of Class B disposal assuming Phase 4 construction in 2034.

Wastewater Treatment Plant Upgrade

- Current Status:

- Highlights of the comparison:

- Cost savings of ~20 Million to produce Class A Biosolids
- Ease of ability to expand (only additional greenhouse space needed)
- Ease of operations (not complicated for staff)

Wastewater Treatment Plant Upgrade

- Questions
- Summary
- Recommendation – Florida Green
- Next Steps:
 - *Design of the selected upgrade – 2021*
 - *Funded with SRF Loan*
 - *Construction – 2022/2023*

CITY OF KENNEWICK
RESOLUTION NO. 20-12

A RESOLUTION APPROVING DESIGN AND CONSTRUCTION OF THE
WASTEWATER TREATMENT PLANT UPGRADE PROJECT

WHEREAS, the City completed a Wastewater Treatment Plant Facility Plan in 2015 to update flow and load projections, evaluate major unit processes, develop alternatives to address critical needs and prepare a phased capital improvement plan; and

WHEREAS, the facility plan proposed improvements for biosolids management that included mechanical dewatering of digested solids and anaerobic digestion, producing Class B Biosolids; and

WHEREAS, prior to the start of design of biosolids management improvements, the City became aware of a newly proposed treatment option (Florida Green) that had significant cost savings and produced Class A Biosolids; and

WHEREAS, the City and it's consultant JUB Engineers, evaluated the treatment option by visiting a newly constructed facility, conducting cold and hot weather pilot studies and completing a technical memorandum comparing and ranking Florida Green to the treatment alternatives in the Facility Plan; and

WHEREAS, the Florida Green treatment option ranked as the preferred alternative for biosolids management; NOW, THEREFORE,

BE IT HEREBY RESOLVED BY THE CITY COUNCIL OF THE CITY OF KENNEWICK, WASHINGTON, that the design and construction of the Wastewater Treatment Plant Upgrade Project for Biosolids Management shall be completed in accordance with the Florida Green treatment option as recommended in the 2020 Technical Memorandum comparing alternatives.

PASSED BY THE CITY COUNCIL OF THE CITY OF KENNEWICK, WASHINGTON, this 20th day of October, 2020, and signed in authentication of its passage this 20th day of October, 2020.

Recommendation

Staff recommends that Council accept the Tourism Promotion Area (TPA) Commission recommendation and approve the increase in the TPA assessment from \$2.00 to \$3.00 per night of stay by adopting Ordinance 5883.

Motion for Consideration

I move to adopt Ordinance 5883 and authorize the Mayor to sign the second amendment to the interlocal agreement.

Summary

During the October 13th workshop, Michael Novakovich, President and CEO of Visit Tri-Cities provided Council with an update on the Tri-City Regional Hotel-Motel Commission 2021 Budget and Marketing Plan, which included the Tourism Promotion Area (TPA) goals and accomplishments. During the workshop, Michael discussed with Council the recommendation from recent Hotel-Motel Commission meetings to increase the TPA assessment from \$2.00 to \$3.00. This recommendation is allowed due to legislation providing an opportunity to increase the TPA fee above the \$2.00. In addition, Michael provided a comparison to other markets surrounding the Tri-Cities region.

As required, the representatives of the Hotel-Motel Commission met with the hoteliers in the three cities to discuss the TPA assessment and the hoteliers were in favor of implementing this increase. During the October 15th Tri-City Regional Hotel-Motel Commission Meeting, the Commission unanimously approved the attached resolution #103-20 recommending the increase from \$2.00 to \$3.00 per room per day. The \$1.00 increase will be used to provide marketing and promotion of our community and prepare us to rebound from the shutdown due to the pandemic. The areas that Visit Tri-Cities will continue to focus on are: Meetings & Conventions, Sports Events, and Tourist Development. This increase will also allow us to remain competitive with the other markets.

Alternatives

Not to approve the TPA assessment increase as recommended by the Tri-City Regional Hotel-Motel Commission.

Fiscal Impact

No fiscal impact to the City of Kennewick as this is an assessment that is collected by the hotels in Kennewick and is then passed through to Visit Tri-Cities to administer.

CITY OF KENNEWICK
ORDINANCE NO. 5883

AN ORDINANCE RELATING TO SPECIAL LODGING ASSESSMENTS
AND AMENDING SECTION 3.25.010 OF THE KENNEWICK MUNICIPAL
CODE

WHEREAS, upon recommendation from the Tri-City Regional Hotel-Motel Commission for the increase of the Special Lodging Assessment from \$2.00 per day of stay to \$3.00 per day of stay; and

WHEREAS, the cities have contemporaneously herewith, adopted the First Amendment to the Interlocal Cooperation Agreement for Establishment of Tri-City Regional Tourism Promotion Area to provide for the increase in Special Lodging Assessment; NOW, THEREFORE,

THE CITY COUNCIL OF THE CITY OF KENNEWICK, WASHINGTON, DO ORDAIN AS FOLLOWS:

Section 1. Section 3.25.010 of the Kennewick Municipal Code, be and the same hereby is, amended to read as follow:

3.25.010: Authorization of Special Lodging Assessment: There is hereby assessed, pursuant to RCW 35.101.050, a Special Lodging Assessment as a charge for the furnishing of lodging by lodging businesses located within the Kennewick Tourism Promotion Area in the amount of:

- (1) Three Dollars and 00/Cents (\$3.00) per night of stay at each Class A Lodging Business as defined below.
- (2) No charge (\$0.00) per night of stay at each Class B Lodging Business as defined below. (Ord. 5526 Sec. 1, 2013; Ord. 5043 Sec. 2 (part), 2004)

Section 2. Effective Date. This Ordinance shall take full force and effect on the 1st day of January, 2021, contingent upon the adoption of similar Ordinances by the City Councils of the cities of Pasco and Richland, Washington, on or before that date.

PASSED BY THE CITY COUNCIL OF THE CITY OF KENNEWICK, WASHINGTON, this 20th day of October, 2020, and signed in authentication of its passage this 20th day of October, 2020.

DON BRITAIN, Mayor

DATE OF PUBLICATION _____

**SECOND AMENDMENT TO
INTERLOCAL COOPERATION AGREEMENT
FOR ESTABLISHMENT OF
TRI-CITY REGIONAL TOURISM PROMOTION AREA
PROVIDING FOR THE INCREASE IN THE
LEVY OF THE SPECIAL LODGING ASSESSMENT
ON LODGING BUSINESSES WITHIN THE
TRI-CITY REGIONAL TOURISM PROMOTION AREA**

BY THIS SECOND AMENDMENT to that Interlocal Cooperation Agreement for Establishment of Tri-City Regional Promotion Area dated the 1st day of June, 2004, entered into by and among the City of Kennewick, the City of Pasco, and the City of Richland, Washington, the parties agree to the following:

WHEREAS, the Special Lodging Assessment was established in 2004 at \$1.50 per night of stay; and

WHEREAS, in 2013, by Resolution received from the Tri-City Regional Hotel-Motel Commission, the Commission recommended an increase in the Special Lodging Assessment from \$1.50 to \$2.00 per night of stay as permitted by RCW 35.101.050; and

WHEREAS, on October 17, 2013 the City of Kennewick, City of Pasco, and the City of Richland, formally approved the increase in the Special Lodging Assessment from \$1.50 to \$2.00 per day, which has since that time remained unchanged, and in doing so the cities amended the Interlocal Cooperation Agreement for Establishment of Tri-City Regional Promotion Area to reflect that change; and

WHEREAS, in 2020, the Washington Legislature approved the amendment of RCW 35.101 by adding RCW 35.101.057 which allows for an increase in the Special Lodging Assessment in excess of the prior limit of two dollars per night of stay allowing up to an additional three dollars per night of stay, upon receipt of signatures of the persons who operate lodging businesses who would pay sixty percent or more of the proposed charges; and

WHEREAS, a proposal was made to increase the Special Lodging Assessment from \$2.00 to \$3.00 per day of stay as permitted by RCW 35.101.057 and the Tri-City Regional Hotel-Motel Commission has received the requisite signatures as well as the proposed uses and projects to which the proposed revenue from the additional charge shall be put, the total estimate costs, and the estimated rate for the charge as required by RCW 35.101.057; and

WHEREAS, by Resolution received from the Tri-City Regional Hotel-Motel Commission, the Commission is recommending an increase in the Special Lodging Assessment from \$2.00 to \$3.00 per night of stay as permitted by RCW 35.101.057; and

WHEREAS, the increase of the Special Lodging Assessment can only be enacted upon the approval of all of the cities, and amendment of the respective Ordinances establishing the assessment by a majority plus one of each of the City Councils.

NOW, THEREFORE, in consideration of the mutual covenants contained herein, the cities agree as follows:

1. That Section 3.A of the Interlocal Cooperation Agreement shall be and hereby is amended and shall read as follows.

3. Levy of Special Lodging Assessments on Lodging Businesses within the Tri-City Regional Tourism Promotion Area.

A. The City Council of each of the Cities shall levy a Special Lodging Assessment on the Operators of Lodging Businesses within their jurisdictions uniformly throughout the Tri-City Regional Tourism Promotion Area as follows:

Classification A: \$~~2.00~~ 3.00
Classification B: \$ -0-

2. All remaining terms, sections, subsections, and conditions of the Interlocal Cooperation Agreement for Establishment of the Tri-City Regional Tourism Promotion Area, dated the 1st day of June, 2004, including all prior amendments thereof, not inconsistent herewith, shall remain unchanged and in full force and effect.

IN WITNESS WHEREOF, the City of Kennewick, the City of Pasco, and the City of Richland, Washington, by their authorized officials have executed this Agreement pursuant to all requirements of law on this __ day of _____, 2020.

RESOLUTION NO. 103-20

**A RESOLUTION FOR THE INCREASE IN THE SPECIAL
LODGING ASSESSMENT**

WHEREAS, a proposal has been submitted to the Commission to recommend an increase in the Special Lodging Assessment rates; and

WHEREAS, the current assessment of \$2.00 per room per day has not been changed since 2014; and

WHEREAS, increasing the marketing funds available from \$2.00 per room per day to \$3.00 per room per day to promote the Tri-Cities as a premier destination will translate into increased visitor spending and economic development for the entire region; and

WHEREAS, the revenues resulting from the increase from \$2.00 to \$3.00 are to be invested in the recruitment of conventions and sports tournaments, and leisure travel for the Tri-Cities region; and

WHEREAS, RCW 35.101.057 now permits an assessment rate in excess of \$2.00 per night of stay and up to \$5.00 per night of stay; and

WHEREAS, any change in the Special Lodging Assessment rate above \$2.00 per night of stay must be initiated by the signatures of the persons who operate lodging businesses who would pay sixty percent or more of the proposed charges, and such signatures have been collected; and

WHEREAS, any change in the Special Lodging Assessment rate must also be initiated by the affirmative recommendation of the Tri-City Regional Hotel-Motel Commission, and thereafter, approved by the affirmative vote of a majority plus one of each City Council with the cities within the Tourism Promotion area; and

WHEREAS, after due consideration to the proposal, NOW, THEREFORE

IT IS RESOLVED that signatures of the persons who operate lodging businesses who would pay sixty percent or more of the proposed charges have been provided, and the Tri-City Regional Hotel-Motel Commission recommends to the City Councils of the cities of Kennewick, Pasco, and Richland to, by appropriate legislation, amend the Special Lodging Assessment upon all Class A lodging businesses from \$2.00 per night of stay to \$3.00 per night of stay; and amend the Interlocal Cooperation Agreement for establishment of the Tri-City Regional Tourism Promotion Area, as amended October 17, 2013.

IT IS FURTHER RESOLVED that the Secretary transmit to the City Councils of the City of Kennewick, Pasco, and Richland a copy of this Resolution requesting their affirmative approval.

The number of those voting in favor of the Resolution are 6.

The number of those voting in opposition of the Resolution are 0.

The Resolution is x approved rejected.
